RBC Vision Women's Leadership MSCI Canada Index ETF (RLDR)

June 7, 2023

This document contains key information you should know about the RBC Vision Women's Leadership MSCI Canada Index ETF. You can find more detailed information about this exchange-traded fund (ETF) in the prospectus. The prospectus is available by visiting www.rbcgam.com/regulatorydocuments, by contacting RBC Global Asset Management Inc. (RBC GAM) at etfs.investments@rbc.com or by calling 1-855-RBC-ETFs (722-3837), or by contacting your representative.

Before you invest, consider how the ETF would work with your other investments and your tolerance for risk.

Effective on or about September 15, 2023, the ETF will be terminated. In advance of termination, the ETF will voluntarily delist from the NEO Exchange, with its last day of trading expected to be on or about September 12, 2023.

Market price:	\$23.33 - \$26.89	Average bid-ask spread:	0.14%
Net asset value (NAV):	\$23.19 - \$27.08		

What does the ETF invest in?

The investment objective of the ETF is to replicate, to the extent possible and before fees and expenses, the performance of a broad Canadian equity markets index with a focus on companies domiciled in Canada that have demonstrated commitment to gender diversity as part of their corporate social responsibility strategy. Currently, the ETF seeks to track the MSCI Canada IMI Women's Leadership Select Index (or any successor thereto).

The MSCI Canada IMI Women's Leadership Select Index is a Canadian equity markets index that includes securities of companies domiciled in Canada that have demonstrated commitment to gender diversity and have met the following criteria: at least three women directors, or at least 30% women directors, or two women directors and one woman in a current executive leadership role including chief executive officer, co-chief executive officer or chief financial officer. In addition, the percentage of women directors on a company's board must be greater than the average percentage of women directors on the board of all companies in the MSCI Canada IMI Index. Further, the company must have not faced severe structural or severe ongoing diversity-related controversies, as determined by MSCI Inc.

Further information regarding the MSCI Canada IMI Women's Leadership Select Index is available on the website of the index provider, MSCI Inc., at www.msci.com.

The charts below give you a snapshot of the ETF's investments on April 30, 2023. The ETF's investments will change.

How risky is it?

The value of the ETF can go down as well as up. You could lose money.

One way to gauge risk is to look at how much an ETF's returns change over time. This is called "volatility".

In general, ETFs with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. ETFs with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

RBC GAM has rated the volatility of this ETF as **medium**.

This rating is based on how much the ETF's returns have changed from year to year. It doesn't tell you how volatile the ETF will be in the future. The rating can change over time. An ETF with a low risk rating can still lose money.

Low	Low to Medium	Medium	Medium to High	High
-----	---------------	---------------	----------------	------

For more information about the risk rating and specific risks that can affect the ETF's returns, see the section entitled "Risk Ratings of the RBC ETFs" and "Risk factors" in the ETF's prospectus.

No guarantees

Like most exchange-traded funds, this ETF doesn't have any guarantees. You may not get back the amount of money you invest.

How has the ETF performed?

This section tells you how the units of the ETF have performed over the past four years. Returns¹ are after expenses have been deducted. These expenses reduce the ETF's returns. This means that the ETF's returns may not match the returns of the MSCI Canada IMI Women's Leadership Select Index.

¹ Returns are calculated using the ETF's net asset value (NAV).

Year-by-year returns

This chart shows how the units of the ETF performed in each of the past four years. The ETF dropped in value in one of the four years. The range of returns and change from year to year can help you to assess how risky the ETF has been in the past. It does not tell you how the ETF will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for units of the ETF in a 3-month period over the past four years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	15.5%	June 30, 2020	Your investment would rise to \$1,155
Worst return	-21.2%	March 31, 2020	Your investment would fall to \$788

Average return

The value of a hypothetical \$1,000 investment in units of the ETF since the time of the ETF's inception is \$1,515 which represents an annual compounded rate of return of 8.4% as of April 30, 2023.

Trading ETFs

ETFs hold a basket of investments, like mutual funds, but trade on exchanges like stocks. Here are a few things to keep in mind when trading ETFs:

Pricing

ETFs have two sets of prices: market price and net asset value (NAV).

Market price

- ETFs are bought and sold on exchanges at the market price. The market price can change throughout the trading day. Factors like supply, demand, and changes in the value of an ETF's investments can affect the market price.
- You can get price quotes any time during the trading day. Quotes have two parts: **bid** and **ask**.
- The bid is the highest price a buyer is willing to pay if you want to sell your ETF units. The ask is the lowest price a seller is willing to accept if you want to buy ETF units. The difference between the two is called the "**bid-ask spread**".
- In general, a smaller bid-ask spread means the ETF is more liquid. That means you are more likely to get the price you expect.

Net asset value (NAV)

- Like mutual funds, ETFs have a NAV. It is calculated after the close of each trading day and reflects the value of an ETF's investments at that point in time.
- NAV is used to calculate financial information for reporting purposes – like the returns shown in this document.

Orders

There are two main options for placing trades: market orders and limit orders. A market order lets you buy or sell units at the current market price. A limit order lets you set the price at which you are willing to buy or sell units.

Timing

In general, market prices of ETFs can be more volatile around the start and end of the trading day. Consider using a limit order or placing a trade at another time during the trading day.

Who is this ETF for?

Investors who:

- want to invest in a diversified portfolio of Canadian companies committed to gender diversity,
- want an ETF with a socially responsible approach to investing,
- can handle the ups and downs of the stock market.

A word about tax

In general, you'll have to pay income tax on any money you make on an ETF. How much you pay depends on the tax laws where you live and whether or not you hold the ETF in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your ETF in a non-registered account, distributions from the ETF are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

This section shows the fees and expenses you could pay to buy, own and sell units of the ETF. Fees and expenses – including any trailing commissions – can vary among ETFs.

Higher commissions can influence representatives to recommend one investment over another. Ask about other ETFs and investments that may be suitable for you at a lower cost.

1. Brokerage commissions

You may have to pay a commission every time you buy and sell units of the ETF. Commissions may vary by brokerage firm. Some brokerage firms may offer commission-free ETFs or require a minimum purchase amount.

2. ETF expenses

You don't pay these expenses directly. They affect you because they reduce the ETF's returns.

As of March 31, 2023, the ETF's expenses were 0.29% of its value. This equals \$2.90 for every \$1,000 invested.

Annual rate (as a % of the ETF's value)

Management expense ratio (MER) This is the total of the ETF's total management fee and operating expenses.	0.28%
Trading expense ratio (TER) These are the ETF's trading costs.	0.01%
ETF expenses	0.29%

Trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the ETF. It is for the services and advice that your representative and their firm provide to you.

This ETF doesn't have a trailing commission.

3. Other fees

Fee	What you pay
Exchange and Redemption fee	Upon an exchange or redemption of units of the ETF, RBC GAM may charge to unitholders, at its discretion, an exchange or redemption fee of up to 0.05% of the exchange or redemption proceeds to offset certain transaction costs associated with the exchange or redemption.

<p>What if I change my mind?</p> <p>Under securities law in some provinces and territories, you have the right to cancel your purchase within 48 hours after you receive confirmation of the purchase.</p> <p>In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if this document, the ETF's prospectus or the ETF's financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.</p> <p>For more information, see the securities law of your province or territory or ask a lawyer.</p>	<p>For more information</p> <p>Contact RBC GAM or your representative for a copy of the ETF's prospectus and other disclosure documents.
