Investment mix (February 28, 2021)

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

RBC GAM has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

Low	Low to Medium	Medium	Medium to High	High
-----	----------------------	--------	----------------	------

For more information about the risk rating and specific risks that can affect the fund's returns, see the sections entitled "What are the risks of investing in the fund?" and "Who should invest in this fund?" in the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series A units of the fund have performed over the past five years. Returns are after expenses have been deducted. These expenses reduce the fund's returns.

Year-by-year returns

This chart shows how Series A units of the fund performed in each of the past five years. The fund dropped in value in one of the five years. The range of returns and change from year to year can help you to assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Series A units of the fund in a 3-month period over the past five years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	13.9%	June 30, 2020	Your investment would rise to \$1,139
Worst return	-7.7%	March 31, 2020	Your investment would fall to \$923

Average return

A person who invested \$1,000 in Series A units of the fund since the date the fund was created would have \$1,324 as at February 28, 2021. This works out to an annual compound return of 4.9%.

Who is this fund for?

Investors who:

- are seeking a combination of current income and capital growth potential
- want exposure to a portfolio of global convertible bonds to diversify the fixed-income portion of their overall portfolio
- prefer to maintain a portion of their assets denominated and invested in U.S. dollars to avoid converting U.S. dollars to Canadian dollars and back again
- are planning to hold their investment for the long term

A word about tax

In general, you'll have to include in your taxable income any money you make on a fund held outside a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account. How much income tax you pay depends on the tax laws that apply to you and the fund.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses - including any commissions - can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

Series A units are no load. That means you pay no sales charges if you buy, redeem or switch your units.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the fund's returns.

As of December 31, 2020, the expenses for Series A units of the fund were 1.62% of its value. This equals \$16.20 for every \$1,000 invested.

Annual rate (as a % of the Series A units' value)

Management expense ratio (MER)

This is the total of the fund's management fee (including the trailing commission) and operating expenses (the administration fee, other fund costs and taxes).

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and advice your representative and your representative's firm provide to you. Your representative's firm may pay part of the trailing commission to its representatives.

RBC GAM pays your representative's firm a trailing commission. The trailing commission is paid out of the management fee. The rate for this series of the fund is 0.75% of the value of your investment each year. This equals \$7.50 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell, switch or reclassify units of the fund.

Fee	What you pay
Short-term trading fee	2% of the value of units you sell or switch within 7 days of buying them. This fee goes to the fund.
Registered tax plan fee	Fees may be payable to your representative or to his or her firm if you transfer an investment within a registered plan to another financial institution. None of these fees are paid to us.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact RBC GAM or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.
