Quarterly Commentary as at June 30, 2010

In the second quarter, the RBC Canadian Equity Fund (Series A) lost 6.6%, compared to a 5.5% loss for the S&P/TSX Composite Total Return Index.

Canada's stock market, highly exposed to Energy and Financials, finished in negative territory as uncertainty over the recovery in global economic growth stoked concern about banks and commodity producers. 2009's positive momentum faded over the period on mounting concern about Europe's sovereign-debt crisis and policy tightening in China. The G20's decision to focus on deficit reduction rather than increased government spending, added to investor nervousness about the sustainability of the global economic recovery.

Fund results were negatively affected by stock selection in Energy and Information Technology. A position in Suncor held back returns after a series of fires at an oil-sands project, while Research In Motion shares were hurt by concerns over the competitive position in the growing smartphone

market. Shoppers Drug Mart also had a negative effect on results after Ontario released rules that reduced drug reimbursements.

The Fund benefited from holdings in Materials and Financials. In Financials, declines in provisions for credit losses helped drive earnings at the big banks, although gains in bank stocks were pared after Royal Bank of Canada posted quarterly results that disappointed some investors. In Materials, shares of gold producers benefited from a surge in metal as investors sought a safe haven and our exposure to Barrick Gold positively contributed to results.

A strong housing market, improved job outlook and rebound in manufacturing are setting the stage for a continued, albeit slow, improvement in the Canadian economy. Tougher regulations, stimulus removal in emerging economies and the developed world market's rising debt levels are among the key issues that will determine the magnitude and pace of the recovery.

RBC Canadian Equity Fund

Disclosure

RBC Funds are offered by RBC Asset Management Inc. and distributed through authorized dealers. RBC Global Asset Management (RBC GAM) comprises RBC Asset Management Inc. (RBC AM), Phillips, Hager & North Investment Management Ltd. (PH&N) and RBC Global Asset Management (U.S.) Inc., which are separate legal entities owned by Royal Bank of Canada.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus of the mutual fund before investing. Except as otherwise noted, the indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns. Mutual funds are not guaranteed or covered by the Canadian Deposit Insurance Corporation or by any other government deposit insurer. The value of mutual funds change frequently and past performance may not be repeated.

The Top 25 Holdings may change due to ongoing portfolio transactions within the fund. The Prospectus and other information about the underlying investment funds are available at www.sedar.com.

Graphs are only used to illustrate the effects of the compound growth rate and do not reflect future values of any fund or returns on investment of any fund.

This fund profile is provided for informational purposes only. Particular investments and/or trading strategies should be evaluated relative to each individual's investment objectives. The information contained in this fund profile is not, and should not be construed as, investment or tax advice. You should not act or rely on the information contained in this fund profile without seeking the advice of an appropriate professional advisor.

For money market funds, the performance data assumes reinvestment of distributions only and does not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns. In addition, for money market funds, there can be no assurances that the fund will be able to maintain its net asset value per unit at a constant amount or that the full amount of your investment in the fund will be returned to you.

Quartile rankings are determined by Morningstar Research Inc., an independent research firm. Quartile rankings are comparisons of the performance of a fund to other funds in a particular category and are

subject to change monthly. The quartiles divide the data into four equal segments expressed in terms of rank (1, 2, 3 or 4). This is the Morningstar quartile ranking of Series A units of the Fund as of July 31, 2010.

Morningstar ratings are overall ratings reflecting risk adjusted performance as of July 31, 2010. The ratings are subject to change every month. The ratings are calculated for funds with a minimum of 3 years of performance, calculated from the funds' 1 and 3 year average annual returns measured against a 91-day Treasury Bill return with appropriate fee adjustments. The top 10% of the funds in a category receive 5 stars (high); if the funds fall in the next 22.5%, they receive 4 stars (above average); a place in the middle 35% earns a fund 3 stars (neutral or average); those in the next 22.5% receive 2 stars (below average); and the lowest 10% get 1 star (low). Ratings are just one factor to consider when investing. For more information, please see www.morningstar.ca.
