#### Quarterly Commentary as at September 30, 2018

The Fund was launched on January 29, 2018. Investment performance is not provided for a fund that has been available for less than one year.

Recent economic headlines have been dominated by U.S. protectionism and the potential for escalating tariff conflicts. This year's uptick in volatility has been caused in part by increasing global bond yields, and emerging markets have

experienced especially sharp declines, hindered by U.S. dollar strength. With the Brexit deadline six months away, there is still no exit agreement in place between the U.K. and the European Union. The failure of the sides to reach an agreement could lead to European equity volatility in the coming months.
