Quarterly Commentary as at September 30, 2017

Kite Pharma was the biggest contributor. It was the subject of a takeover offer from Gilead Sciences at a 29% premium in an all-cash offer. U.S. producer of nitrogen fertiliser CF Industries was also positive for returns. It rallied strongly as prices for urea (the key component in its product) have risen by over 60% since the end of June. Japanese manufacturer of precision motors Nidec reported strong Q1 numbers and the company is poised to benefit from the continued electrification of cars and developments in robotic applications. Deutsche Post performed strongly after impressive second quarter profits and U.S. cosmetics business Estee Lauder benefitted from strong sales growth and FY18 guidance.

UK-listed global hotel franchise operator Intercontinental Hotels was the biggest detractor on slightly weaker first half results. U.S. financial trading platform MarketAxess fell slightly after summer trading volume statistics missed expectations. Irish-listed gaming company Paddy Power suffered as it is still integrating recent acquisition Betfair. Swiss pharmaceutical Roche

and U.S. alternative asset manager Blackstone also detracted this quarter.

All major markets posted strong returns in their respective local currencies. The U.S. led the way, driven by strong macro and company fundamentals, and the UK was the laggard as uncertainty around Brexit continued. Despite a late quarter rally on the back of the U.S. Federal Reserve's intentions to reduce its balance sheet and tighten rates, the U.S. dollar continued to weaken. Sterling appreciated over the period as inflation came in more strongly and the Bank of England hinted at November tightening.

As always the RBC Global Equity team remains committed to the discovery of companies that we deem to be future success stories. We are constantly searching for compelling long-term opportunities at the right valuations whilst avoiding those businesses that are overvalued or optically cheap but fundamentally flawed.

Quartile rankings are determined by Morningstar Research Inc., an independent research firm, based on categories maintained by the Canadian Investment Funds Standards Committee (CIFSC). Quartile rankings are comparisons of the performance of a fund to other funds in a particular category and are subject to change monthly. The quartiles divide the data into four equal segments expressed in terms of rank (1, 2, 3 or 4). This is the Morningstar quartile ranking of Series A and F units of the Fund as of September 30, 2017.
