

Investment objective

This fund is an asset allocation fund designed to meet the needs of investors who are saving money towards their retirement, which they expect will commence around 2060. After an initial phase of increasing equity exposure, the fund invests primarily in equities until 10 years prior to retirement, at which point it gradually shifts its asset mix from an emphasis on equity funds to an emphasis on fixed income funds. Over the life of the fund, its portfolio will shift from a focus on funds with growth potential to a focus on funds that will preserve capital.
