

RBC Managed Payout Solution - Enhanced Plus

Fund Category
Canadian Equity Balanced

Morningstar Rating™
★★★

Investment Objective

To provide as high a regular monthly distribution as possible, including dividends, realized capital gains, other income and a return of capital, without continuing significant erosion of the net asset value of the fund. To provide a potential for modest capital growth.

Quarterly Commentary as at June 30, 2010

In the second quarter, the RBC Managed Payout Solution - Enhanced Plus (Series A) declined 2.7%, compared to 2.5% loss for its benchmark.

Global equity markets peaked early in the second quarter and were under pressure for the balance of it. Chief concerns centered on the impact that both government debt levels, as well as belt-tightening, which numerous countries may need to implement as stimulus is withdrawn from the markets and economies, will have on global growth.

The Canadian equity market was one of the better-performing markets across the globe, with precious metals shares soaring as gold was sought as a safe haven. The S&P/TSX Composite Total Return Index was down 5.5%, while both the S&P500 Total Return Index and the MSCI EAFE Total Return Index fell 11% in their local

currencies. An underweight position in bonds hampered the Portfolio's relative underperformance compared to its benchmark.

Fixed-income yields moved lower in the second quarter, with global bonds returning 3%. This positive return was a function of a global flight to safety into higher-quality government bonds, as well as expectations for rate increases being placed on hold.

Our roadmap remains the same, as it anticipated that a typical mid-cycle correction was likely to ensue as we moved through 2010. Having already witnessed a global 15-20% downdraft, a decent portion of the total equity market declines has been seen and some hedges have been covered. Time elements suggest that there still remains a congestion period in the coming months, setting the stage for a rally later this year.

Disclosure

RBC Funds are offered by RBC Asset Management Inc. and distributed through authorized dealers. RBC Global Asset Management (RBC GAM) comprises RBC Asset Management Inc. (RBC AM), Phillips, Hager & North Investment Management Ltd. (PH&N) and RBC Global Asset Management (U.S.) Inc., which are separate legal entities owned by Royal Bank of Canada.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus of the mutual fund before investing. Except as otherwise noted, the indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns. Mutual funds are not guaranteed or covered by the Canadian Deposit Insurance Corporation or by any other government deposit insurer. The value of mutual funds change frequently and past performance may not be repeated.

The Top 25 Holdings may change due to ongoing portfolio transactions within the fund. The Prospectus and other information about the underlying investment funds are available at www.sedar.com.

Graphs are only used to illustrate the effects of the compound growth rate and do not reflect future values of any fund or returns on investment of any fund.

This fund profile is provided for informational purposes only. Particular investments and/or trading strategies should be evaluated relative to each individual's investment objectives. The information contained in this fund profile is not, and should not be construed as, investment or tax advice. You should not act or rely on the information contained in this fund profile without seeking the advice of an appropriate professional advisor.

For money market funds, the performance data assumes reinvestment of distributions only and does not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns. In addition, for money market funds, there can be no assurances that the fund will be able to maintain its net asset value per unit at a constant amount or that the full amount of your investment in the fund will be returned to you.

Quartile rankings are determined by Morningstar Research Inc., an independent research firm. Quartile rankings are comparisons of the performance of a fund to other funds in a particular category and are

subject to change monthly. The quartiles divide the data into four equal segments expressed in terms of rank (1, 2, 3 or 4). This is the Morningstar quartile ranking of Series A units of the Fund as of June 30, 2010.

Morningstar ratings are overall ratings reflecting risk adjusted performance as of June 30, 2010. The ratings are subject to change every month. The ratings are calculated for funds with a minimum of 3 years of performance, calculated from the funds' 1 and 3 year average annual returns measured against a 91-day Treasury Bill return with appropriate fee adjustments. The top 10% of the funds in a category receive 5 stars (high); if the funds fall in the next 22.5%, they receive 4 stars (above average); a place in the middle 35% earns a fund 3 stars (neutral or average); those in the next 22.5% receive 2 stars (below average); and the lowest 10% get 1 star (low). Ratings are just one factor to consider when investing. For more information, please see www.morningstar.ca.
