

 RUDB

Investment objective

RBC U.S. Discount Bond ETF seeks to provide unitholders with exposure to the performance of a diversified portfolio of primarily short term fixed-income securities issued in the U.S. market by U.S. governments and U.S. and foreign corporations which at the time of purchase are trading below the weighted average price of the universe of U.S. short term bonds to provide regular income while preserving capital.

Reasons to invest

- Generate capital gains and lower interest income which creates lower taxes today. Capital gains taxed at half the rate of interest and deferred until maturity
- A solution for taxable accounts and clients that have aversion to declining capital values and loss of principal
- Minimum credit quality and concentration maximums ensure a high-quality, diversified portfolio
- Provides regular monthly income while preserving capital

Disclosure

RBC ETFs are offered by RBC Global Asset Management Inc. and distributed through authorized dealers. Commissions, management fees and expenses all may be associated with investments in exchange-traded funds (ETFs). Please read the prospectus and/or ETF Facts before investing. ETFs are not guaranteed, their values change frequently and past performance may not be repeated. ETF units are bought and sold at market price on a stock exchange and brokerage commissions will reduce returns. RBC ETFs do not seek to return any predetermined amount at maturity. Index returns do not represent RBC ETF returns. RBC ETFs are managed by RBC Global Asset Management Inc., an indirect wholly-owned subsidiary of Royal Bank of Canada.

Except as otherwise noted, the indicated rates of return are the historical total returns for the periods including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, commission charges or income taxes payable by any unitholder that would have reduced returns.
