

RBC Asia Pacific Ex-Japan Equity Fund

Gain exposure to some of the world's fastest growing economies through RBC Asia Pacific ex-Japan Equity Fund. The Fund provides exposure to a regional mix of developed and emerging market equities and a broad range of high-quality companies.

Why invest in an international equity strategy?

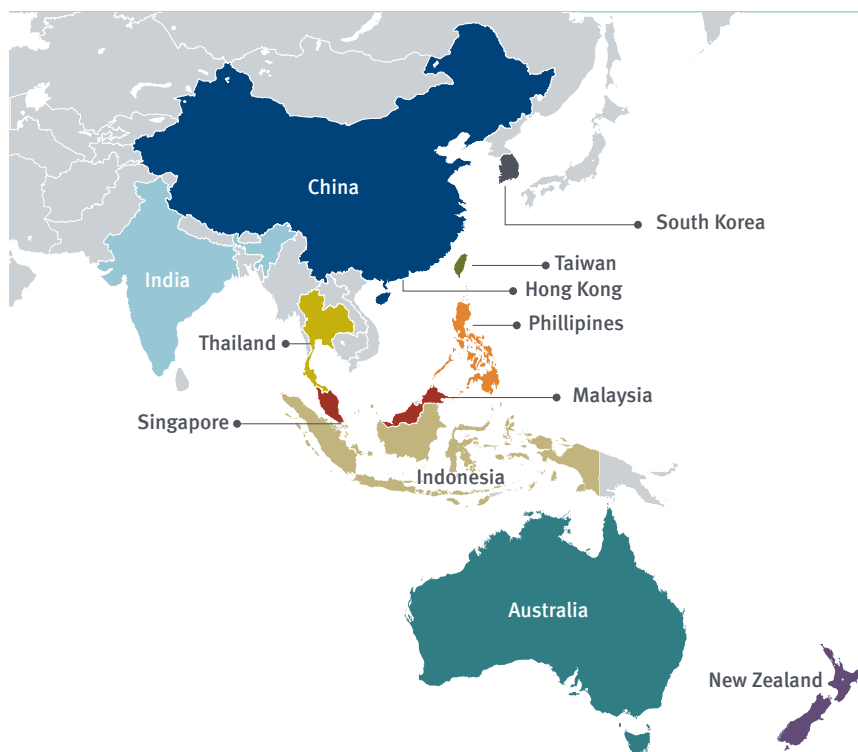

- **Exposure to quality international businesses:** Industry-leading companies outside of North America offer a broad range of unique and high-quality investment opportunities.
- **Enhance risk-adjusted returns:** Diversifying across different economies, geographies and currencies can help reduce portfolio volatility and enhance long-term returns.
- **Targeted exposure:** Regionally focused equity funds, such as **RBC Asia Pacific ex-Japan Equity Fund** can provide exposure to markets and economies with attractive valuations or opportunities difficult to find in North America.

APPROPRIATE FOR INVESTORS WHO:

- Are seeking economic, geographic and currency diversification outside of North America.
- Can tolerate medium to high investment risk and considerable fluctuations in the value of their investment.
- Are planning to hold their investment for the long-term.

Asia Pacific ex-Japan offers exposure to some of the world's fastest growing economies

The Fund invests primarily in companies located or having principal business interests in:

Why RBC Asia Pacific ex-Japan Equity Fund?

- **A local, experienced management team:** The team's 10 investment professionals manage over \$3.5 billion in Asian equities. They are located on the ground in Asia giving them unique insight into regional economies. Lead manager Mayur Nallamala has 20 years industry experience and has managed mandates in the Asia Pacific region for sovereign wealth, institutional and retail clients around the world.
- **A straightforward investment process:** The Fund's investment process is primarily based on fundamental research, although the portfolio manager will also consider quantitative and technical factors. Stock selection decisions are ultimately based on an understanding of the company, its business and its outlook.
- **To achieve the Fund's objectives, the portfolio manager:**
 - Assesses the economic outlook for the Asia Pacific region, including expected growth, market valuations and economic trends.
 - Focuses on the outlook for Asia Pacific sectors and themes.
 - Diversifies the Fund by sector within the region to help reduce risk.
 - Monitors, reviews and has regular contact with companies in order to understand the company outlook, value and competitive environment.
