

# RBC Quant Global Infrastructure Leaders ETF

**RBC Quant Global Infrastructure Leaders ETF (RIG)** is a high-quality global equity income solution developed by the RBC Global Asset Management Quantitative Investment team (QI team). RIG employs a rules-based, multi-factor approach to build a global portfolio of listed infrastructure companies – defined as owners of infrastructure assets such as: Utilities, Transportation, Energy, Communications and Water – with attractive yields, strong balance sheets, and stable cash flow. An innovative approach to weighting and a quarterly reconstitution is designed to further enhance risk-return characteristics.

## Why invest in global infrastructure?

- Alternative source of stable income in a low-yield environment
- Global diversification with exposure to long lived real assets with high barriers to entry
- Partial inflation hedge, with low correlations to traditional asset classes

## Why invest in RIG?

- Access to diversified portfolio of global infrastructure companies in a single ETF
- Potential for stable, regular monthly income and long-term capital growth
- Leverages a proprietary rules based, multi-factor investment approach

RBC Global Asset Management offers a comprehensive lineup of ETFs and mutual funds designed to deliver effective investment solutions to help investors build better portfolios. Our investment solutions are backed by the strength of an experienced investment team at RBC Global Asset Management Inc.

With offices in several financial centres around the world, RBC Global Asset Management Inc. is one of Canada's largest money managers.

\*At this stage of the investment process Sharpe Ratio is the measure used to indicate the average return minus the risk-free return divided by the standard deviation of return on an investment.

Commissions, management fees and expenses all may be associated with investments in exchange-traded funds (ETFs). Please read the prospectus or Fund Facts document before investing. ETFs are not guaranteed, their values change frequently and past performance may not be repeated. ETF units are bought and sold at market price on a stock exchange and brokerage commissions will reduce returns. RBC ETFs are managed by RBC Global Asset Management Inc., an indirect wholly-owned subsidiary of Royal Bank of Canada.
