

RBC Canadian Preferred Share ETF

RBC Canadian Preferred Share ETF (RPF) is a high-quality, actively managed preferred share solution. RPF aims to provide dividend income by investing primarily in rate reset preferred shares of Canadian companies.

Why preferred shares?

Preferred shares can serve as an alternative source of stable income in a low-yield environment. They generally offer a higher yield compared to bonds of the same issuer and, historically, have had low correlation with Canadian bonds and equities. Income from Canadian preferred shares is eligible for the dividend tax credit, which can provide tax advantages.

Commissions, management fees and expenses all may be associated with investments in exchange-traded funds (ETFs). Please read the prospectus or Fund Facts document before investing. ETFs are not guaranteed, their values change frequently and past performance may not be repeated. ETF units are bought and sold at market price on a stock exchange and brokerage commissions will reduce returns. RBC ETFs are managed by RBC Global Asset Management Inc., an indirect wholly-owned subsidiary of Royal Bank of Canada.

RBC ETFs are available across Canada.
