**Portfolio Manager** RBC Global Asset Management Inc. ("RBC GAM")

The Board of Directors of RBC Global Asset Management Inc. approved this annual management report of fund performance on March 9, 2023.

**A Note on Forward-looking Statements**

This report may contain forward-looking statements about the Fund, its future performance, strategies or prospects, and possible future Fund action. The words "may," "could," "should," "would," "suspect," "outlook," "believe," "plan," "anticipate," "estimate," "expect," "intend," "forecast," "objective" and similar expressions are intended to identify forward-looking statements.

Forward-looking statements are not guarantees of future performance. Forward-looking statements involve inherent risks and uncertainties, both about the Fund and general economic factors, so it is possible that predictions, forecasts, projections and other forward-looking statements will not be achieved. We caution you not to place undue reliance on these statements as a number of important factors could cause actual events or results to differ materially from those expressed or implied in any forward-looking statement made in relation to the Fund. These factors include, but are not limited to, general economic, political and market factors in Canada, the United States and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological changes, changes in laws and regulations, judicial or regulatory judgments, legal proceedings and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. All opinions contained in forward-looking statements are subject to change without notice and are provided in good faith but without legal responsibility.

## MANAGEMENT DISCUSSION OF FUND PERFORMANCE

### Investment Objective and Strategies

The Fund seeks to provide investors with long-term capital growth by investing primarily in a well-diversified portfolio of Canadian common stocks that are qualified investments for registered Canadian pension plans. The Fund may also invest a portion of its assets in U.S. and international securities. To achieve the Fund's investment objective, the portfolio manager invests primarily in large-capitalization companies that they believe have a superior management team, a leadership position in their industry, a high level of profitability compared to their competitors, and strong earnings potential.

### Risk

There were no significant changes to the investment objective and strategies that affected the Fund's overall level of risk during the reporting period. The risks of investing in the Fund and the suitability of the Fund for investors remain as discussed in the Simplified Prospectus.

### Results of Operations

The Fund's net asset value fell to \$84 million as of December 31, 2022, from \$93 million at the end of 2021. The decrease was due to a combination of net redemptions and investment losses.

Over the past year, the Fund's Series F units lost 7.0%, which outperformed the 7.9% decline in the benchmark. The broad-based index fell 5.8%. The Fund's return is after the deduction of fees and expenses, while benchmark and broad-based index returns do not include any costs of investing. See the Financial Highlights section for the management expense ratios and the Past Performance section for the returns of any other series, which may vary because of differences in management fees and expenses.

Canadian and U.S. stocks tumbled in 2022, fueled by the highest inflation in decades and the concurrent rise in interest rates. Stocks came under pressure after the U.S. Federal Reserve and the Bank of Canada responded to inflation – the fastest in 40 years – with a vow to stamp it out with successive interest-rate hikes. Interest-rate-sensitive stocks were hurt most, resulting in a sell-off in the Information Technology sector in both markets. Meanwhile, a surge in energy prices helped cushion market returns in Canada, which outperformed most other major markets during the year. The drop in the S&P 500 Index was the worst since 2008 – the year of the financial crisis – but only since 2018 for the Canadian benchmark.

The Fund's relative exposure to Shopify, Pioneer Natural Resources and PrairieSky Royalty had the most positive impact on the Fund's returns, while exposure to Alphabet, Intuit and Canadian Natural Resources was negative for performance.

The sectors that had the most positive impact on the Fund's returns were Financials, Health Care and Consumer Discretionary, while exposure to Consumer Staples, Information Technology and Energy had a negative impact.

The Fund had overweight positions in Alphabet, JPMorgan Chase and Microsoft and underweight positions in National Bank of Canada, BCE and Waste Connections.

At the sector level, the Fund had overweight exposure to Industrials, Information Technology and Health Care and underweight exposure to Materials, Utilities and Energy.

### Recent Developments

Uncertainty is elevated and there is a wide range of potential outcomes for the economy and financial markets. The good news for investors is that stocks are now much more reasonably priced than they were at the start of the year. While valuation risk has diminished and long-term return potential has increased, stock prices could still fall in the event that we enter a recession and earnings decline. In the current environment, stock gains could be limited in the near term absent evidence that the economy is cooling adequately to bring down inflation while avoiding a recession.

Effective September 20, 2022, Brenda Eaton was appointed as Vice Chair of the Independent Review Committee (the "IRC") following the death of Paul K. Bates, who had served as a dedicated member of the IRC since December 2014. Effective December 31, 2022, Charles F. Macfarlane stepped down as a member of the IRC, and effective January 1, 2023, Suromitra Sanatani was appointed as Chair of the IRC.

### Related-Party Transactions

#### *Manager and Portfolio Manager*

RBC GAM is an indirect, wholly owned subsidiary of Royal Bank and is the manager and principal portfolio manager of the Fund. RBC GAM is responsible for the Fund's day-to-day operations, provides investment advice and portfolio management services to the Fund and appoints distributors for the Fund. RBC GAM is paid a management fee by the Fund as compensation for its services. The Fund pays a fixed administration fee to RBC GAM, which, in turn, pays certain operating expenses of the Fund. Both the management fee and fixed administration fee are calculated and accrued daily as a percentage of the net asset value of each series of units of the Fund.

RBC GAM or its affiliates may earn fees and spreads in connection with various services provided to, or transactions with, the Fund, such as banking, brokerage, securities lending, foreign exchange and derivatives transactions. RBC GAM or its affiliates may earn a foreign exchange spread when unitholders switch between series of funds denominated in different currencies. The Fund also maintains

bank accounts and overdraft provisions with Royal Bank for which Royal Bank may earn a fee. Affiliates of RBC GAM that provide services to the Fund in the course of their normal businesses are discussed below.

***Distributors***

RBC GAM, Royal Mutual Funds Inc., RBC Direct Investing Inc., RBC Dominion Securities Inc. and Phillips, Hager & North Investment Funds Ltd. are principal distributors of, or may distribute certain series of units of, the Fund. Dealers may receive an ongoing commission based on the total value of their clients' investment in certain series of units of the Fund.

***Registrars***

RBC GAM, RBC Investor Services Trust ("RBC IS") or Royal Bank (or a combination thereof) are the registrars of the Fund and keep records of who owns units of the Fund. The registrars earn a fee, which is paid by the manager from the fixed administration fee paid by the Fund.

***Trustee and Custodian***

RBC IS is the trustee and holds title to the Fund's property on behalf of unitholders. RBC IS is the custodian of the Fund and holds the assets of the Fund.

RBC IS earns a fee as the trustee and custodian, which is paid by the manager from the fixed administration fee paid by the Fund.

***Securities Lending Agent***

To the extent the Fund may engage in securities lending transactions, RBC IS may act as the Fund's securities lending agent. Any revenue earned on such securities lending is split between the Fund and the securities lending agent.

***Brokers and Dealers***

The Fund has established standard brokerage and dealing agreements at market rates with related parties. For the periods ended December 31, 2022 and 2021, the related-party commissions were \$2,000 (2021 – \$4,000), or 10% (2021 – 12%) of the total transaction costs paid for this Fund.

***Other Related-Party Transactions***

Pursuant to applicable securities legislation, the Fund relied on the standing instructions from the Independent Review Committee with respect to one or more of the following transactions:

***Related-Party Trading Activities***

- (a) trades in securities of Royal Bank;
- (b) investments in the securities of issuers for which a related-party dealer acted as an underwriter during the distribution of such securities and the 60-day period following the conclusion of such distribution of the underwritten securities to the public;
- (c) purchases of equity and debt securities from or sales of equity or debt securities to a related-party dealer, where it acted as principal; and

***Inter-Fund Trading***

- (d) purchases or sales of securities of an issuer from or to another investment fund or managed account managed by RBC GAM.

The applicable standing instructions require that Related-Party Trading Activities and Inter-Fund Trading be conducted in accordance with RBC GAM policy and that RBC GAM advise the Independent Review Committee of a material breach of any standing instruction. RBC GAM policy requires that an investment decision in respect of Related-Party Trading Activities (i) is made free from any influence of Royal Bank or its associates or affiliates and without taking into account any consideration relevant to Royal Bank or its affiliates or associates, (ii) represents the business judgment of the portfolio manager, uninfluenced by considerations other than the best interests of the Fund, (iii) is in compliance with RBC GAM policies and procedures, and (iv) achieves a fair and reasonable result for the Fund. RBC GAM policy requires that an investment decision in respect of Inter-Fund Trading is in the best interests of each Fund.

<sup>1</sup> Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

<sup>2</sup> Distributions are reinvested in additional units of the Fund or paid in cash.

<sup>1</sup> The management expense ratio ("MER") is based on the direct expenses charged to the Fund and the Fund's proportionate share of the expenses of underlying funds, if any, for the stated period, excluding commissions and other portfolio transaction costs, and is expressed as an annualized percentage of the daily average net asset value during the period. RBC GAM may, at its discretion and without notice to unitholders, waive or absorb certain operating expenses. MER includes the waiver or absorption by RBC GAM of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by RBC GAM.

<sup>2</sup> The Fund's portfolio turnover rate gives an indication of the level of activity employed by the portfolio manager. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between high turnover rate and the performance of the Fund. The portfolio turnover rate is not applicable to money market funds.

<sup>3</sup> The trading expense ratio represents total commissions and other portfolio transaction costs of the Fund and the Fund's proportionate share of such costs of underlying funds expressed as an annualized percentage of daily average net asset value during the period. The trading expense ratio is not applicable to fixed-income transactions.

## FINANCIAL HIGHLIGHTS (cont.)

### Management Fees and Administration Fees

Management fees and administration fees of each series of the Fund are payable to RBC GAM and calculated at the following annual percentages, before GST/HST, of the daily net asset value of each series of the Fund. The management fee, breakdown of services received in consideration of the management fee, as a percentage of the management fee, and the administration fee for each series are as follows:

	Management Fees	Breakdown of Services		Administration Fees
		Distribution	Other*	
Series F	0.50%	—	100%	0.06%
Series O	n/a	n/a	n/a	0.03%

Series O – no management fees are paid by the Fund with respect to Series O units. Series O unitholders pay a negotiated fee directly to RBC GAM for investment-counselling services.

\* Includes all costs related to management, investment advisory services, general administration and profit.

## PAST PERFORMANCE

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional units of the Fund and would be lower if distributions were not reinvested. The performance information does not take into account sales, redemption, distribution, optional charges or income taxes payable that would have reduced returns or performance. Past performance does not necessarily indicate how the Fund may perform in the future. A fund with more than 10 years of performance history is only permitted to disclose the past 10 years.

### Year-by-Year Returns (%)

The bar chart indicates the Fund's performance for each of the years shown, and illustrates how the Fund's performance has changed from year to year. The bar chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the end of the financial year.

**Series O (%)**

### Annual Compound Returns (%)

The table shows the annual compound returns for each series of the Fund and for each of the periods indicated ended on December 31, 2022, compared with the following benchmarks:

The new benchmark is composed of:

- 85% S&P/TSX Capped Composite Total Return Index
- 15% S&P 500 Total Return Index (hedged to CAD)

The old benchmark is the S&P/TSX Capped Composite Total Return Index.

The change in benchmark better reflects the composition of the Fund.

The broad-based index is the S&P/TSX Capped Composite Total Return Index.

The returns of each series may vary because of differences in management fees and expenses. Benchmark and/or broad-based index returns do not include any costs of investing. See Management Discussion of Fund Performance for a discussion of performance relative to benchmark and/or broad-based indexes.

Inception dates are not provided for series that have been in existence for more than 10 years.

## INDEX DESCRIPTIONS

**S&P/TSX Capped Composite Total Return Index** This index is the amended capitalization-weighted index measuring the performance of selected securities listed on the Toronto Stock Exchange, with no individual stock exceeding 10% of the overall weight.

**S&P 500 Total Return Index (hedged to CAD)** This index is a capitalization-weighted index measuring the performance of 500 widely held common stocks representing all major industries in the United States. The index gives investors a broad measure of the overall performance of the U.S. stock market and is hedged to Canadian dollars.
