

BALANCED FUND

RBC EMERGING MARKETS BALANCED FUND

December 31, 2024

Portfolio Manager *RBC Global Asset Management Inc. ("RBC GAM")*

The Board of Directors of RBC Global Asset Management Inc. approved this annual management report of fund performance on March 10, 2025.

A Note on Forward-looking Statements

This report may contain forward-looking statements about the Fund, its future performance, strategies or prospects, and possible future Fund action. The words "may," "could," "should," "would," "suspect," "outlook," "believe," "plan," "anticipate," "estimate," "expect," "intend," "forecast," "objective" and similar expressions are intended to identify forward-looking statements.

Forward-looking statements are not guarantees of future performance. Forward-looking statements involve inherent risks and uncertainties, both about the Fund and general economic factors, so it is possible that predictions, forecasts, projections and other forward-looking statements will not be achieved. We caution you not to place undue reliance on these statements as a number of important factors could cause actual events or results to differ materially from those expressed or implied in any forward-looking statement made in relation to the Fund. These factors include, but are not limited to, general economic, political and market factors in Canada, the United States and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological changes, changes in laws and regulations, judicial or regulatory judgments, legal proceedings and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. All opinions contained in forward-looking statements are subject to change without notice and are provided in good faith but without legal responsibility.

This annual management report of fund performance ("MRFP") contains financial highlights but does not contain the complete annual financial statements of the Fund. You can get a copy of the financial statements at your request, and at no cost, by calling 1-800-463-FUND (3863), by writing to us at RBC Global Asset Management Inc., P.O. Box 7500, Station A, Toronto, Ontario M5W 1P9, or by visiting our website at www.rbcgam.com/regulatorydocuments or SEDAR+ at www.sedarplus.ca. Security holders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objective and Strategies

The Fund seeks to provide a combination of capital growth and modest income by investing primarily in a diversified portfolio of emerging markets equity and fixed-income securities. The Fund invests up to 100% of its net assets in units of funds managed by RBC GAM or an affiliate of RBC GAM (called the “underlying funds”).

To achieve its objective, the Fund selects underlying funds from the RBC Funds family or the PH&N Funds family that focus on emerging market equity securities, emerging market currencies and emerging market government and corporate bonds.

The Fund’s target weightings for each asset class are 50% for fixed income and 50% for equities. The target weightings for each asset class may be adjusted based on changes in the market outlook for each asset class. The actual allocation to each class will be no more than 20% above or below its target weighting.

Risk

There were no significant changes to the investment objective and strategies that affected the Fund’s overall level of risk during the reporting period. The risks of investing in the Fund and the suitability of the Fund for investors remain as discussed in the Simplified Prospectus.

Results of Operations

The Fund’s net asset value rose to \$7 million as of December 31, 2024, from \$6 million at the end of 2023. The increase was due to investment returns.

Over the past year, the Fund’s Series F units gained 16.2%. The broad-based index 1 rose 15.6% and the broad-based index 2 rose 17.3%. The Fund’s return is after the deduction of fees and expenses, while benchmark and broad-based index returns do not include any costs of investing. See the Financial Highlights section for the management expense ratios and the Past Performance section for the returns of any other series, which may vary because of differences in management fees and expenses.

Global financial markets managed to shake off increasing macroeconomic instability during 2024 as a relatively strong U.S. economy, falling inflation and interest-rate cuts by major central banks helped maintain steady, if not spectacular, growth in the global economy. China’s anemic expansion limited economic activity and forced the country’s government to implement substantial measures to support sustained growth. Donald Trump’s victory in the U.S. presidential election in November set the stage for policies perceived as more shareholder-friendly and new approaches to geopolitical uncertainty.

Emerging-market equities and bonds recorded gains as the U.S. Federal Reserve began lowering interest rates in response to easing inflation after two years of uncomfortably high price increases. An improving macroeconomic backdrop boosted fixed income in emerging markets, which benefited from lower borrowing costs and efforts by the International Monetary Fund and other multilateral agencies to continue providing financing to the most vulnerable emerging-market governments. This benign environment was particularly positive for bonds issued by riskier emerging-market countries. Issuers of high-yielding bonds such as Argentina, El Salvador and Egypt delivered returns of more than 30%. Overall, the bonds of riskier emerging-market countries outperformed those issued by investment-grade emerging markets such as Qatar, Poland and Malaysia.

The Fund’s fixed-income segment benefited from holdings in the RBC Emerging Markets Bond Fund, the BlueBay Emerging Markets Corporate Bond Fund and the BlueBay Emerging Markets Bond Fund.

Emerging-market equities were aided by returns in Taiwan, whose stock index benefited from exposure to advances in artificial intelligence, and Chinese markets rallied to their best performance since 2020 after the government announced aggressive stimulus plans to bolster anemic economic growth. India, the third-largest emerging market after China, also offered attractive returns. However, emerging-market stocks lagged developed markets, extending more than a decade of underperformance, as the U.S. dollar appreciated versus emerging-market currencies.

As the end of the year approached, concerns arose after China’s efforts to turn around its economy disappointed, driving authorities to announce further monetary and fiscal stimulus. The other key development was the reelection of Donald Trump to the White House. Trump promised during the campaign to impose tariffs on U.S. merchandise imports. Emerging-market countries that run large trade surpluses with the U.S., such as China, Mexico and Vietnam, are obvious targets.

Returns in the portfolio’s equity portion were bolstered by exposure to the RBC Emerging Markets Equity Focus Fund and the RBC Emerging Markets Dividend Fund.

Recent Developments

The benign macroeconomic backdrop that characterized most of 2024 is in jeopardy given the threat of U.S. trade protectionism and Chinese economic weakness. Moreover, valuations of emerging-market government bonds are somewhat stretched, and the portfolio manager plans to maintain a preference for countries with stronger economic fundamentals. That said, the monetary easing that most emerging-market central banks deployed in 2024 will continue to offset some of the risks faced by the world economy.

There are two major factors supporting emerging-market equities over the medium term. First, earnings and economic growth are poised to improve from the low levels of the past few years, driven by rising productivity, structural reforms and growth-friendly fiscal policies. Second, emerging-market stocks are attractively valued, particularly relative to developed markets, following their significant underperformance.

Related-Party Transactions

Manager, Trustee and Portfolio Manager

RBC GAM is an indirect, wholly owned subsidiary of Royal Bank of Canada ("Royal Bank") and is the manager, trustee and portfolio manager of the Fund. RBC GAM is responsible for the Fund's day-to-day operations, holds title to the Fund's property on behalf of its unitholders, provides investment advice and portfolio management services to the Fund and appoints distributors for the Fund. RBC GAM is paid a management fee by the Fund as compensation for its services. The Fund pays a fixed administration fee to RBC GAM, which, in turn, pays certain operating expenses of the Fund. Both the management fee and fixed administration fee are calculated and accrued daily as a percentage of the net asset value of each series of units of the Fund. RBC GAM, as trustee, earns a fee, which is paid by the manager from the fixed administration fee paid by the Fund.

RBC GAM or its affiliates may earn fees and spreads in connection with various services provided to, or transactions with, the Fund, such as banking, brokerage, securities lending, foreign exchange and derivatives transactions. RBC GAM or its affiliates may earn a foreign exchange spread when unitholders switch between series of funds denominated in different currencies. The Fund also maintains bank accounts and overdraft provisions with Royal Bank for which Royal Bank may earn a fee. Affiliates of RBC GAM that provide services to the Fund in the course of their normal businesses are discussed below.

Distributors

RBC GAM, Royal Mutual Funds Inc., RBC Direct Investing Inc., RBC Dominion Securities Inc. and Phillips, Hager & North Investment Funds Ltd. are principal distributors of, or may distribute certain series of units of, the Fund. Dealers may receive an ongoing commission based on the total value of their clients' investment in certain series of units of the Fund.

Registrars

RBC GAM, RBC Investor Services Trust ("RBC IS") or Royal Bank (or a combination thereof) are the registrars of the Fund and keep records of who owns units of the Fund. The registrars earn a fee, which is paid by the manager from the fixed administration fee paid by the Fund.

Custodian

RBC IS is the custodian and holds the assets of the Fund. RBC IS earns a fee as the custodian, which is paid by the manager from the fixed administration fee paid by the Fund.

Securities Lending Agent

To the extent the Fund may engage in securities lending transactions, RBC IS may act as the Fund's securities lending agent. Any revenue earned on such securities lending is split between the Fund and the securities lending agent.

Other Related-Party Transactions

Pursuant to applicable securities legislation, the Fund relied on the standing instructions from the Independent Review Committee with respect to one or more of the following transactions:

Related-Party Trading Activities

- (a) trades in securities of Royal Bank;
- (b) investments in the securities of issuers for which a related-party dealer acted as an underwriter during the distribution of such securities and the 60-day period following the conclusion of such distribution of the underwritten securities to the public;
- (c) purchases of equity, debt securities or mortgages from or sales of equity, debt securities or mortgages to a related-party dealer, where it acted as principal; and

Inter-Fund Trading

- (d) purchases or sales of securities of an issuer from or to another investment fund or managed account managed by RBC GAM.

The applicable standing instructions require that Related-Party Trading Activities and Inter-Fund Trading be conducted in accordance with RBC GAM policy and that RBC GAM advise the Independent Review Committee of a material breach of any standing instruction. RBC GAM policy requires that an investment decision in respect of Related-Party Trading Activities (i) is made free from any influence of Royal Bank or its associates or affiliates and without taking into account any consideration relevant to Royal Bank or its affiliates or associates, (ii) represents the business judgment of the portfolio manager, uninfluenced by considerations other than the best interests of the Fund, (iii) is in compliance with RBC GAM policies and procedures, and (iv) achieves a fair and reasonable result for the Fund. RBC GAM policy requires that an investment decision in respect of Inter-Fund Trading is in the best interests of each Fund.

FINANCIAL HIGHLIGHTS

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the past five years or for the periods since inception. This information is derived from the Fund's audited annual financial statements.

Change in Net Assets Per Unit (\$)

¹ Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

² Distributions are reinvested in additional units of the Fund or paid in cash.

¹ The management expense ratio ("MER") is based on the direct expenses charged to the Fund and the Fund's proportionate share of the expenses of underlying funds, if any, for the stated period, excluding commissions and other portfolio transaction costs, and is expressed as an annualized percentage of the daily average net asset value during the period. RBC GAM may, at its discretion and without notice to unitholders, waive or absorb certain operating expenses. MER includes the waiver or absorption by RBC GAM of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by RBC GAM.

² The Fund's portfolio turnover rate gives an indication of the level of activity employed by the portfolio manager. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund. The portfolio turnover rate is not applicable to money market funds.

³ The trading expense ratio represents total commissions and other portfolio transaction costs of the Fund and the Fund's proportionate share of such costs of underlying funds expressed as an annualized percentage of daily average net asset value during the period. The trading expense ratio is not applicable to fixed-income transactions.

Effective January 1, 2023, the administration fees for Series O units were reduced to 0.02% from 0.05%. If the changes to the administration fees would have been in effect throughout the financial year ended December 31, 2022, the adjusted MER for each series of the Fund would be: Series O – 0.13%.

FINANCIAL HIGHLIGHTS (cont.)

Management Fees and Administration Fees

Management fees and administration fees of each series of the Fund are payable to RBC GAM and calculated at the following annual percentages, before GST/HST, of the daily net asset value of each series of the Fund. The management fee, breakdown of services received in consideration of the management fee, as a percentage of the management fee, and the administration fee for each series are as follows:

	Management Fees	Breakdown of Services		Administration Fees †
		Distribution	Other*	
Series A	1.85%	54%	46%	0.05%
Series T5	1.85%	54%	46%	0.05%
Series D	1.10%	23%	77%	0.05%
Series F	0.85%	—	100%	0.05%
Series FT5	0.85%	—	100%	0.05%
Series O	n/a	n/a	n/a	0.02%

Series O – no management fees are paid by the Fund with respect to Series O units. Series O unitholders pay a negotiated fee directly to RBC GAM for investment-counselling services.

* Includes all costs related to management, trustee, investment advisory services, general administration and profit.

† Effective January 1, 2023, the administration fees for Series O units were reduced to 0.02% from 0.05%.

PAST PERFORMANCE

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional units of the Fund and would be lower if distributions were not reinvested. The performance information does not take into account sales, redemption, distribution, optional charges or income taxes payable that would have reduced returns or performance. Past performance does not necessarily indicate how the Fund may perform in the future. A fund with more than 10 years of performance history is only permitted to disclose the past 10 years.

Year-by-Year Returns (%)

The bar chart indicates the Fund's performance for each of the years shown, and illustrates how the Fund's performance has changed from year to year. The bar chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the end of the financial year.

The returns of each series may vary because of differences in management fees and expenses. Benchmark and/or broad-based index returns do not include any costs of investing. See Management Discussion of Fund Performance for a discussion of performance relative to benchmark and/or broad-based indexes.

Series A, Series T5, Series D, Series F, Series FT5 and Series O units have been available for sale to unitholders since January 27, 2020.

Inception dates are not provided for series that have been in existence for more than 10 years.

INDEX DESCRIPTIONS

JPMorgan EMBI Global Diversified (CAD) This index is a broad measure of the performance of U.S. dollar-denominated emerging-market debt in the Americas, Europe, Asia, the Middle East and Africa. The index, which is measured in Canadian dollars, limits the weights of countries with larger amounts of debt by including only a specific portion of their debt outstanding.

MSCI Emerging Markets Total Return Net Index (CAD) This index is a broad measure of the Canadian-dollar performance of emerging-market equities. As of May 2010, the index consisted of the following 21 emerging-market country indexes: Brazil, Chile, China, Colombia, Czech Republic, Egypt, Hungary, India, Indonesia, Malaysia, Mexico, Morocco, Peru, Philippines, Poland, Russia, South Africa, South Korea, Taiwan, Thailand and Turkey. The net total return index reinvests dividends after the deduction of withholding taxes, using (for international indexes) a tax rate applicable to non-resident institutional investors who do not benefit from double taxation treaties.

SUMMARY OF INVESTMENT PORTFOLIO

(after consideration of derivative products, if any)

As at December 31, 2024
