MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objective and Strategies

The Fund seeks to provide total returns consisting of interest income and modest capital appreciation through exposure to global convertible bonds.

To achieve the Fund's objectives, the Fund invests most of its assets in the BlueBay Global Convertible Bond Fund (Canada) (the "underlying fund"), which holds mainly global convertible bonds issued by entities domiciled or carrying out business activities anywhere in the world. The portfolio manager of the underlying fund conducts detailed credit and equity analysis to identify investment opportunities offering higher probabilities of superior rates of return while minimizing the prospect of default.

Risk

There were no significant changes to the investment objective and strategies that affected the Fund's overall level of risk during the reporting period. The risks of investing in the Fund and the suitability of the Fund for investors remain as discussed in the Simplified Prospectus.

Results of Operations

The Fund's net asset value rose to \$41 million as of March 31, 2021, from \$30 million as of March 31, 2020. The increase was due to investment returns.

Over the past year, the Fund's Series A shares gained 37.3%, outperforming the 35.3% rise in the benchmark. The Fund's return is after the deduction of fees and expenses, while the benchmark and broad-based index returns do not include any costs of investing. See the Financial Highlights section for the management expense ratios and the Past Performance section for the returns of any other series, which may vary because of differences in management fees and expenses.

The COVID-19 pandemic dominated investor attention over the 12-month period. Equity markets recovered from pandemic-related declines in early 2020 after an infusion of unprecedented central-bank support, and the S&P 500 Index rose to records in late 2020 and early 2021 after vaccines to treat the coronavirus were approved. However, the momentum in equity markets was limited late in the period by rising long-term government-bond yields caused by a stronger economic outlook and the passage of the Biden administration's US\$1.9 trillion fiscal stimulus in March.

Holdings that had a positive impact on the Fund's performance included Snap, the social-media app that reported stronger-than-expected quarterly earnings; Delivery Hero, a Berlin-based food-delivery company that benefited from rising food orders during the pandemic and received conditional approval to buy one of South

Korea's biggest delivery apps; and Square, the operator of an online payment system. Square rallied after the company reported strong quarterly earnings and better-than-expected use of the company's payment app.

Holdings that had a negative impact on the Fund's performance included Genfit, a biopharmaceutical company that fell after the company reported disappointing late-stage trial results for its hepatitis drug; NIO, the Chinese electric-vehicle manufacturer; and China's Xiaomi, which fell after the smartphone maker was blacklisted by the U.S. in January for alleged links to the Chinese military.

Recent Developments

The rise in bond yields in recent months has prompted investors to pull back from growth stocks. However, the portfolio manager expects equities to stabilize and then gradually rise as economic stimulus programs take effect and earnings move higher. The portfolio manager is comfortable that convertible bonds offer a degree of protection from falling equity markets, and with companies continuing to issue convertible securities, believes that there is ample opportunity for the portfolio to deliver attractive risk-adjusted returns.

Effective February 28, 2021, Ms. Catherine J. Kloefer resigned as Vice Chair of the Independent Review Committee (the "IRC"). Effective March 22, 2021, Mr. Paul K. Bates was appointed as Vice Chair of the IRC. Effective April 1, 2021, Ms. Brenda Eaton was appointed as a member of the IRC.

Effective June 26, 2020, Advisor Series and Advisor T5 Series mutual fund shares were capped and were re-designated as Series A mutual fund shares and Series T5 mutual fund shares, respectively, effective August 4, 2020.

Effective June 26, 2020, Series H mutual fund shares were re-designated as Series A mutual fund shares, and Series I mutual fund shares were re-designated as Series F mutual fund shares.

RBC GAM policy requires that an investment decision in respect of Inter-Fund Trading is in the best interests of each Fund.

¹ The management expense ratio ("MER") is based on the direct expenses charged to the Fund and the Fund's proportionate share of the expenses of underlying funds, if any, for the stated period, excluding commissions and other portfolio transaction costs, and is expressed as an annualized percentage of the daily average net asset value during the period. RBC GAM may, at its discretion and without notice to shareholders, waive or absorb certain operating expenses. MER includes the waiver or absorption by RBC GAM of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by RBC GAM.

² The Fund's portfolio turnover rate gives an indication of the level of activity employed by the portfolio manager. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund.

³ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period. The trading expense ratio is not applicable to fixed-income transactions.

Effective January 1, 2020, the management fees for Series A and Series T5 mutual fund shares were reduced to 1.35% from 1.65%; for Series D mutual fund shares were reduced to 0.75% from 1.05%; and for Series F and Series FT5 mutual fund shares were reduced to 0.60% from 0.90%. If the changes to the management fees would have been in effect throughout the financial year ended March 31, 2020, the adjusted MER for each series of the Fund would be: Series A – 1.70%, Series T5 – 1.64%, Series D – 0.97%, Series F – 0.86% and Series FT5 – 0.85%.

Effective June 30, 2016, the management fees for Series A and Series T5 mutual fund shares were reduced to 1.65% from 1.70%; for Series D mutual fund shares were reduced to 1.05% from 1.10%; and for Series F and Series FT5 mutual fund shares were reduced to 0.90% from 0.95%. If the changes to the management fees would have been in effect throughout the financial year ended March 31, 2017, the adjusted MER for each series of the Fund would be: Series A – 2.07%, Series T5 – 2.06%, Series D – 1.36%, Series F – 1.25% and Series FT5 – 1.24%.

Management Fees and Administration Fees

Management fees and administration fees of each series of the Fund are payable to RBC GAM and calculated at the following annual percentages, before GST/HST, of the daily net asset value of each series of the Fund. The management fee, breakdown of services received in consideration of the management fee, as a percentage of the management fee, and the administration fee for each series are as follows:

	Management Fees*	Breakdown of Services		Administration Fees
		Distribution	Other [†]	
Series A	1.35%	44%	56%	0.02%
Series T5	1.35%	44%	56%	0.02%

Series F	0.60%	—	100%	0.02%
Series FT5	0.60%	—	100%	0.02%
Series O	n/a	n/a	n/a	0.02%

Series O – no management fees are paid by the Fund with respect to Series O mutual fund shares. Series O shareholders pay a negotiated fee directly to RBC GAM for investment-counselling services.

* Effective January 1, 2020, the management fees for Series A and Series T5 mutual fund shares were reduced to 1.35% from 1.65%; for Series D mutual fund shares were reduced to 0.75% from 1.05%; and for Series F and Series FT5 mutual funds shares were reduced to 0.60% from 0.90%.

[†] Includes all costs related to management, investment advisory services, general administration and profit.
