MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objective and Strategies

The Fund seeks to provide regular monthly income with the potential for modest capital appreciation by investing primarily in units of fixed-income funds managed by RBC GAM or an affiliate of RBC GAM (called the “underlying funds”). To achieve its objective, the Fund invests in underlying funds from the RBC Funds family or the PH&N Funds family.

The portfolio manager allocates and rebalances the Fund’s assets among underlying funds based on the underlying funds’ ability to help the Fund meet its investment objectives.

Risk

There were no significant changes to the investment objective and strategies that affected the Fund’s overall level of risk during the reporting period. The risks of investing in the Fund and the suitability of the Fund for investors remain as discussed in the Simplified Prospectus.

Results of Operations

The Fund’s net asset value rose to \$900 million as of December 31, 2023, from \$896 million at the end of 2022. The increase was due to investment returns, partially offset by net redemptions.

Over the past year, the Fund’s Series F units gained 6.7%, which outperformed the 6.0% rise in the benchmark. The broad-based index rose 6.7%. The Fund’s return is after the deduction of fees and expenses, while benchmark and broad-based index returns do not include any costs of investing. See the Financial Highlights section for the management expense ratios and the Past Performance section for the returns of any other series, which may vary because of differences in management fees and expenses.

In 2023, the Fund made monthly distributions of 2.10 cents per Series F unit. For the year, the Fund made total distributions of approximately 29 cents per Series F unit, consisting of 28 cents per unit from interest income and 1 cent from return of capital. The total distribution included an extra 4-cent year-end payout for each Series F unit. In 2024, the monthly distribution was increased to 2.40 cents per Series F unit.

Canadian bonds posted gains in 2023, breaking a two-year losing streak. Fixed-income returns were bolstered, particularly in the fourth quarter, by signs that slowdowns in inflation and economic growth, especially in Canada and Europe, would give central banks the cover they needed to bring down their benchmark rates from the highest levels in two decades. In particular, the avoidance of a highly anticipated recession made the job of policymakers more difficult, as fears persisted that lower rates would rekindle inflation.

Slowing inflation and economic growth in the first half of 2023 allowed the Bank of Canada (the “BOC”) to decrease the pace of interest-rate increases. The BOC increased interest rates three times during the period, compared with seven times in 2022, resulting in a benchmark rate of 5.0%. Canada’s 10-year yield ended the year slightly lower at 3.11% but traded in a range between 2.72% and 4.24% – the highest since July 2007. The U.S. Federal Reserve (the “Fed”), meanwhile, continued raising its short-term benchmark rate, also at a reduced pace, bringing the benchmark rate to a peak of 5.25% to 5.50%. Government of Canada bonds outperformed their U.S. counterparts as investors bet the BOC would end rate hikes earlier and possibly ease more aggressively than the Fed.

Returns were bolstered by exposure to the Phillips, Hager & North Short Term Bond & Mortgage Fund, the Phillips, Hager & North Total Return Bond Fund and the RBC Bond Fund.

Recent Developments

The portfolio manager believes the BOC has finished the current round of rate hikes and will start lowering rates in 2024 as the Canadian economy slows under the impact of tighter financial conditions. Given record-high levels of debt and high interest rates, Canadian households are cutting back their spending, and businesses are borrowing and investing less. The portfolio manager’s view is that domestic bond yields will therefore continue to fall as the economy slows through the first half of 2024.

Over the longer term, bond yields may stay higher as the Canadian government will have to increase bond issuance to fund expanded social spending. Yields could also be supported by persistent inflation, which would force the BOC to hold policy rates at levels that might limit economic growth.

Effective January 1, 2023, Suromitra Sanatani was appointed as Chair of the Independent Review Committee (“the IRC”). Effective February 1, 2023, Joanne Vézina was appointed as a member of the IRC. Effective March 1, 2023, Enrique Cuyegkeng was appointed as a member of the IRC.

Related-Party Transactions

RBC GAM is responsible for the Fund’s day-to-day operations, holds title to the Fund’s property on behalf of its unitholders, provides investment advice and portfolio management services to the Fund and appoints distributors for the Fund. RBC GAM is paid a management fee by the Fund as compensation for its services. The Fund pays a fixed administration fee to RBC GAM, which, in turn, pays certain operating expenses of the Fund. Both the management fee and fixed administration fee are calculated and

accrued daily as a percentage of the net asset value of each series of units of the Fund. RBC GAM, as trustee, earns a fee, which is paid by the manager from the fixed administration fee paid by the Fund.

RBC GAM or its affiliates may earn fees and spreads in connection with various services provided to, or transactions with, the Fund, such as banking, brokerage, securities lending, foreign exchange and derivatives transactions. RBC GAM or its affiliates may earn a foreign exchange spread when unitholders switch between series of funds denominated in different currencies. The Fund also maintains bank accounts and overdraft provisions with Royal Bank for which Royal Bank may earn a fee. Affiliates of RBC GAM that provide services to the Fund in the course of their normal businesses are discussed below.

Distributors

Registrars

RBC GAM, RBC Investor Services Trust ("RBC IS") or Royal Bank (or a combination thereof) are the registrars of the Fund and keep records of who owns units of the Fund. The registrars earn a fee, which is paid by the manager from the fixed administration fee paid by the Fund.

Custodian

RBC IS is the custodian and holds the assets of the Fund. RBC IS earns a fee as the custodian, which is paid by the manager from the fixed administration fee paid by the Fund.

Securities Lending Agent

To the extent the Fund may engage in securities lending transactions, RBC IS may act as the Fund's securities lending agent. Any revenue earned on such securities lending is split between the Fund and the securities lending agent.

RBC GAM policy requires that an investment decision in respect of Related-Party Trading Activities (i) is made free from any influence of Royal Bank or its associates or affiliates and without taking into account any consideration relevant to Royal Bank or its affiliates or associates, (ii) represents the business judgment of the portfolio manager, uninfluenced by considerations other than the best interests of the Fund, (iii) is in compliance with RBC GAM policies and procedures, and (iv) achieves a fair and reasonable result for the Fund. RBC GAM policy requires that an investment decision in respect of Inter-Fund Trading is in the best interests of each Fund.

¹ The management expense ratio ("MER") is based on the direct expenses charged to the Fund and the Fund's proportionate share of the expenses of underlying funds, if any, for the stated period, excluding commissions and other portfolio transaction costs, and is expressed as an annualized percentage of the daily average net asset value during the period. RBC GAM may, at its discretion and without notice to unitholders, waive or absorb certain operating expenses. MER includes the waiver or absorption by RBC GAM of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by RBC GAM.

² The Fund's portfolio turnover rate gives an indication of the level of activity employed by the portfolio manager. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund. The portfolio turnover rate is not applicable to money market funds.

³ The trading expense ratio represents total commissions and other portfolio transaction costs of the Fund and the Fund's proportionate share of such costs of underlying funds expressed as an annualized percentage of daily average net asset value during the period. The trading expense ratio is not applicable to fixed-income transactions.

Management Fees and Administration Fees

Management fees and administration fees of each series of the Fund are payable to RBC GAM and calculated at the following annual percentages, before GST/HST, of the daily net asset value of each series of the Fund. The management fee, breakdown of services received in consideration of the management fee, as a percentage of the management fee, and the administration fee for each series are as follows:

	Management Fees	Breakdown of Services		Administration Fees
		Distribution	Other*	
Series A	0.90%	56%	44%	0.05%
Series D	0.55%	27%	73%	0.05%
Series F	0.40%	–	100%	0.05%
Series O	n/a	n/a	n/a	0.02%

Series O – no management fees are paid by the Fund with respect to Series O units. Series O unitholders pay a negotiated fee directly to RBC GAM for investment-counselling services.

* Includes all costs related to management, trustee, investment advisory services, general administration and profit.

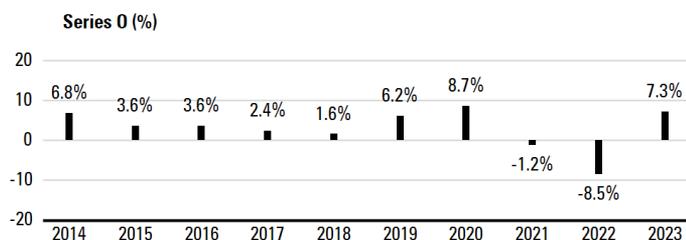

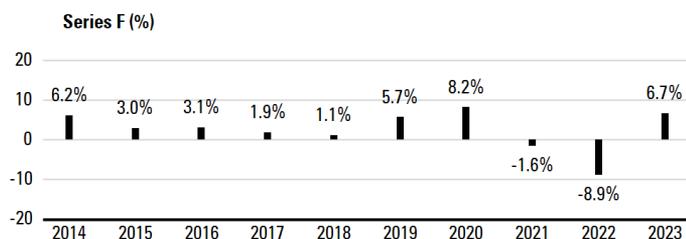

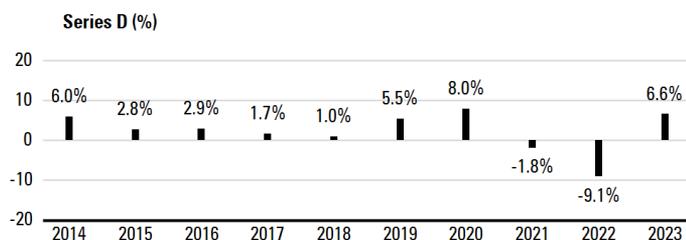

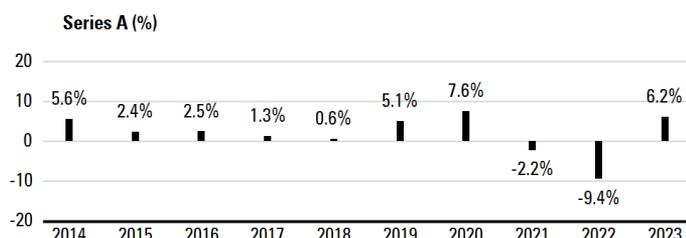

PAST PERFORMANCE

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional units of the Fund and would be lower if distributions were not reinvested. The performance information does not take into account sales, redemption, distribution, optional charges or income taxes payable that would have reduced returns or performance. Past performance does not necessarily indicate how the Fund may perform in the future. A fund with more than 10 years of performance history is only permitted to disclose the past 10 years.

Year-by-Year Returns (%)

The bar chart indicates the Fund's performance for each of the years shown, and illustrates how the Fund's performance has changed from year to year. The bar chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the end of the financial year.

Annual Compound Returns (%)

The table shows the annual compound returns for each series of the Fund and for each of the periods indicated ended on December 31, 2023, compared with the following benchmarks:

The benchmark is composed of:
