

GLOBAL EQUITY FUND

RBC GLOBAL RESOURCES FUND

December 31, 2024

Portfolio Manager *RBC Global Asset Management Inc. ("RBC GAM")*

The Board of Directors of RBC Global Asset Management Inc. approved this annual management report of fund performance on March 10, 2025.

A Note on Forward-looking Statements

This report may contain forward-looking statements about the Fund, its future performance, strategies or prospects, and possible future Fund action. The words "may," "could," "should," "would," "suspect," "outlook," "believe," "plan," "anticipate," "estimate," "expect," "intend," "forecast," "objective" and similar expressions are intended to identify forward-looking statements.

Forward-looking statements are not guarantees of future performance. Forward-looking statements involve inherent risks and uncertainties, both about the Fund and general economic factors, so it is possible that predictions, forecasts, projections and other forward-looking statements will not be achieved. We caution you not to place undue reliance on these statements as a number of important factors could cause actual events or results to differ materially from those expressed or implied in any forward-looking statement made in relation to the Fund. These factors include, but are not limited to, general economic, political and market factors in Canada, the United States and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological changes, changes in laws and regulations, judicial or regulatory judgments, legal proceedings and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. All opinions contained in forward-looking statements are subject to change without notice and are provided in good faith but without legal responsibility.

This annual management report of fund performance ("MRFP") contains financial highlights but does not contain the complete annual financial statements of the Fund. You can get a copy of the financial statements at your request, and at no cost, by calling 1-800-463-FUND (3863), by writing to us at RBC Global Asset Management Inc., P.O. Box 7500, Station A, Toronto, Ontario M5W 1P9, or by visiting our website at www.rbcgam.com/regulatorydocuments or SEDAR+ at www.sedarplus.ca. Security holders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objective and Strategies

The Fund seeks to provide long-term capital growth by investing in stocks of companies around the world that are directly or indirectly involved in exploring for, developing, producing or distributing natural and other resources.

The Fund pursues global companies with a leading market position, high and sustainable profitability, sound finances and attractive valuations relative to peers and the market. The Fund will focus on mid- to large-cap stocks, but will also invest in smaller companies.

Risk

There were no significant changes to the investment objective and strategies that affected the Fund's overall level of risk during the reporting period. The risks of investing in the Fund and the suitability of the Fund for investors remain as discussed in the Simplified Prospectus.

Results of Operations

The Fund's net asset value fell to \$130 million as of December 31, 2024, from \$135 million at the end of 2023. The decrease was due to net outflows, partially offset by investment returns.

Over the past year, the Fund's Series F units gained 6.8%, which underperformed the 7.7% rise in the benchmark. The broad-based index rose 29.4%. The Fund's return is after the deduction of fees and expenses, while benchmark and broad-based index returns do not include any costs of investing. See the Financial Highlights section for the management expense ratios and the Past Performance section for the returns of any other series, which may vary because of differences in management fees and expenses.

Prices for petroleum, metals and other natural resources were mixed during 2024, and shares of companies that produce them generally reflected those movements. Stocks in the Energy and Materials sectors make up the Fund's assets. A below-benchmark weighting in the Energy sector had a negative impact on relative performance, as Energy outperformed the Materials sector.

The price of Brent crude, the global benchmark for oil, declined 3% during 2024 to US\$75 per barrel as slowing demand linked to waning economic growth offset OPEC production cuts. OPEC, a cartel of most of the largest crude-oil suppliers, and aligned producers continued to limit output in an effort to maintain a balance between supply and demand. However, softening economic growth, particularly in China, drove tepid demand for crude oil and refined products such as gasoline and diesel.

Prices for specialty chemicals, gold, steel and copper rose during the year but fell back as 2024 came to a close. The price of copper climbed to US\$5.12 per pound in April from about US\$3.90, before

settling in the US\$4 range on rising supply and a drop in demand. The price of gold rallied to an all-time high of US\$2,790 in late October after the U.S. Federal Reserve (the "Fed") cut interest rates in response to weakening inflation. Gold prices were bolstered by demand for safe-haven investments amid geopolitical tension and rising government budget deficits and debt.

The Fund's performance benefited from positions in CRH, a building-materials producer, and Cheniere Energy, which stores and transports oil and natural gas. Performance was hindered by lack of investment in the area of oil-and-gas storage, as well as in transportation companies such as Williams Cos. and Targa Resources. Exposure to the gold miners Agnico Eagle Mines and Torex Gold aided returns, as did an underweight in Fortescue, which produces iron ore.

Recent Developments

Financial markets continue to weigh the impact of Trump's trade threats, China's economic stimulus and the Fed's increasing reluctance to cut interest rates swiftly. Commodities such as lumber and potash are trading closer to their production cost and may benefit from demand created by lower interest rates. Companies that mine copper, gold and uranium continue to merge in a bid to lower costs and expand production.

The willingness of OPEC countries to cut crude-oil production quotas will help maintain a healthy balance between global supply and demand. The portfolio manager continues to favour companies that are committed to supporting economic development while reducing their environmental footprint – companies that have a proven track record of providing greater transparency in their disclosures regarding environmental, social and governance standards.

Related-Party Transactions

Manager, Trustee and Portfolio Manager

RBC GAM is an indirect, wholly owned subsidiary of Royal Bank of Canada ("Royal Bank") and is the manager, trustee and portfolio manager of the Fund. RBC GAM is responsible for the Fund's day-to-day operations, holds title to the Fund's property on behalf of its unitholders, provides investment advice and portfolio management services to the Fund and appoints distributors for the Fund. RBC GAM is paid a management fee by the Fund as compensation for its services. The Fund pays a fixed administration fee to RBC GAM, which, in turn, pays certain operating expenses of the Fund. Both the management fee and fixed administration fee are calculated and accrued daily as a percentage of the net asset value of each series of units of the Fund. RBC GAM, as trustee, earns a fee, which is paid by the manager from the fixed administration fee paid by the Fund.

RBC GAM or its affiliates may earn fees and spreads in connection with various services provided to, or transactions with, the Fund, such as banking, brokerage, securities lending, foreign exchange and derivatives transactions. RBC GAM or its affiliates may earn a foreign exchange spread when unitholders switch between series of funds denominated in different currencies. The Fund also maintains bank accounts and overdraft provisions with Royal Bank for which Royal Bank may earn a fee. Affiliates of RBC GAM that provide services to the Fund in the course of their normal businesses are discussed below.

Distributors

RBC GAM, Royal Mutual Funds Inc., RBC Direct Investing Inc., RBC Dominion Securities Inc. and Phillips, Hager & North Investment Funds Ltd. are principal distributors of, or may distribute certain series of units of, the Fund. Dealers may receive an ongoing commission based on the total value of their clients' investment in certain series of units of the Fund.

Registrars

RBC GAM, RBC Investor Services Trust ("RBC IS") or Royal Bank (or a combination thereof) are the registrars of the Fund and keep records of who owns units of the Fund. The registrars earn a fee, which is paid by the manager from the fixed administration fee paid by the Fund.

Custodian

RBC IS is the custodian and holds the assets of the Fund. RBC IS earns a fee as the custodian, which is paid by the manager from the fixed administration fee paid by the Fund.

Securities Lending Agent

To the extent the Fund may engage in securities lending transactions, RBC IS may act as the Fund's securities lending agent. Any revenue earned on such securities lending is split between the Fund and the securities lending agent.

Brokers and Dealers

The Fund has established standard brokerage and dealing agreements at market rates with related parties. For the periods ended December 31, 2024 and 2023, the related-party commissions were \$2,000 (2023 – \$9,000) or 6% (2023 – 4%) of the total transaction costs paid for this Fund.

Other Related-Party Transactions

Pursuant to applicable securities legislation, the Fund relied on the standing instructions from the Independent Review Committee with respect to one or more of the following transactions:

Related-Party Trading Activities

- (a) trades in securities of Royal Bank;
- (b) investments in the securities of issuers for which a related-party dealer acted as an underwriter during the distribution of such securities and the 60-day period following the conclusion of such distribution of the underwritten securities to the public;
- (c) purchases of equity, debt securities or mortgages from or sales of equity, debt securities or mortgages to a related-party dealer, where it acted as principal; and

Inter-Fund Trading

- (d) purchases or sales of securities of an issuer from or to another investment fund or managed account managed by RBC GAM.

The applicable standing instructions require that Related-Party Trading Activities and Inter-Fund Trading be conducted in accordance with RBC GAM policy and that RBC GAM advise the Independent Review Committee of a material breach of any standing instruction. RBC GAM policy requires that an investment decision in respect of Related-Party Trading Activities (i) is made free from any influence of Royal Bank or its associates or affiliates and without taking into account any consideration relevant to Royal Bank or its affiliates or associates, (ii) represents the business judgment of the portfolio manager, uninfluenced by considerations other than the best interests of the Fund, (iii) is in compliance with RBC GAM policies and procedures, and (iv) achieves a fair and reasonable result for the Fund. RBC GAM policy requires that an investment decision in respect of Inter-Fund Trading is in the best interests of each Fund.

FINANCIAL HIGHLIGHTS

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the past five years or for the periods since inception. This information is derived from the Fund's audited annual financial statements.

Change in Net Assets Per Unit (\$)

		Increase (Decrease) from Operations ¹					Annual Distributions ²

¹ Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

² Distributions are reinvested in additional units of the Fund or paid in cash.

¹ The management expense ratio ("MER") is based on the direct expenses charged to the Fund and the Fund's proportionate share of the expenses of underlying funds, if any, for the stated period, excluding commissions and other portfolio transaction costs, and is expressed as an annualized percentage of the daily average net asset value during the period. RBC GAM may, at its discretion and without notice to unitholders, waive or absorb certain operating expenses. MER includes the waiver or absorption by RBC GAM of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by RBC GAM.

² The Fund's portfolio turnover rate gives an indication of the level of activity employed by the portfolio manager. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund. The portfolio turnover rate is not applicable to money market funds.

³ The trading expense ratio represents total commissions and other portfolio transaction costs of the Fund and the Fund's proportionate share of such costs of underlying funds expressed as an annualized percentage of daily average net asset value during the period. The trading expense ratio is not applicable to fixed-income transactions.

Effective March 1, 2020, the administration fees for Series A units were reduced to 0.15% from 0.20%. If the changes to the administration fees would have been in effect throughout the financial year ended December 31, 2020, the adjusted MER for each series of the Fund would be: Series A – 2.09%.

Management Fees and Administration Fees

Management fees and administration fees of each series of the Fund are payable to RBC GAM and calculated at the following annual percentages, before GST/HST, of the daily net asset value of each series of the Fund. The management fee, breakdown of services received in consideration of the management fee, as a percentage of the management fee, and the administration fee for each series are as follows:

	Management Fees	Breakdown of Services		Administration Fees
		Distribution	Other*	
Series A	1.75%	57%	43%	0.15%
Series D	1.00%	25%	75%	0.15%
Series F	0.75%	—	100%	0.15%
Series O	n/a	n/a	n/a	0.02%

Series O – no management fees are paid by the Fund with respect to Series O units. Series O unitholders pay a negotiated fee directly to RBC GAM for investment-counselling services.

* Includes all costs related to management, trustee, investment advisory services, general administration and profit.

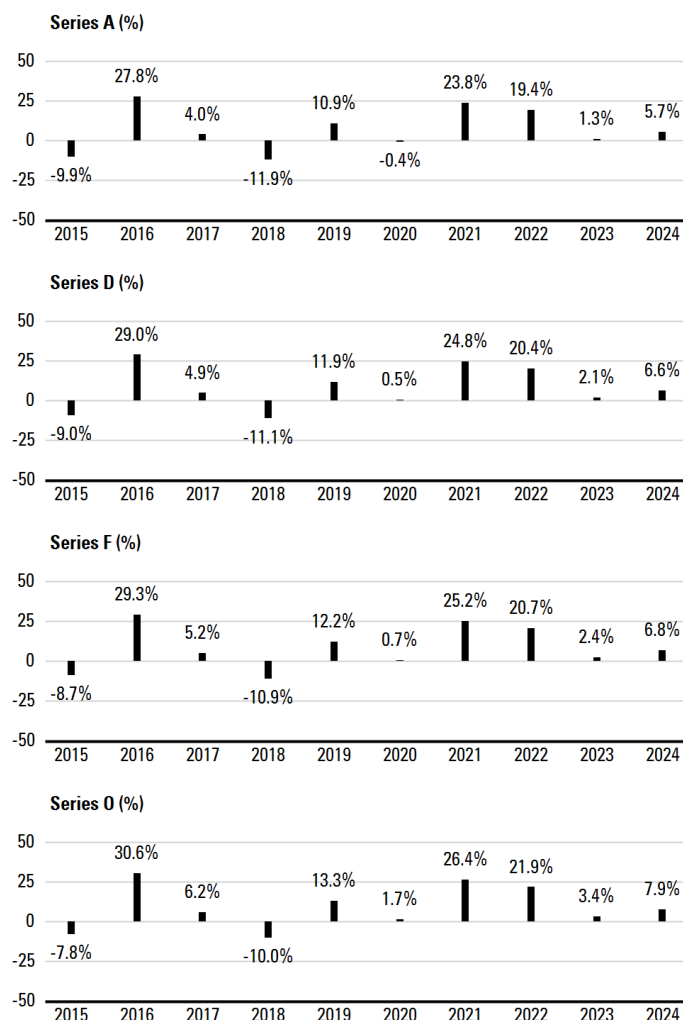

PAST PERFORMANCE

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional units of the Fund and would be lower if distributions were not reinvested. The performance information does not take into account sales, redemption, distribution, optional charges or income taxes payable that would have reduced returns or performance. Past performance does not necessarily indicate how the Fund may perform in the future. A fund with more than 10 years of performance history is only permitted to disclose the past 10 years.

Year-by-Year Returns (%)

The bar chart indicates the Fund's performance for each of the years shown, and illustrates how the Fund's performance has changed from year to year. The bar chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the end of the financial year.

Annual Compound Returns (%)

The table shows the annual compound returns for each series of the Fund and for each of the periods indicated ended on December 31, 2024, compared with the following benchmarks:

Market Cap weighted blend of MSCI World Energy Total Return Net Index (CAD) and MSCI World Materials Total Return Net Index (CAD)

The broad-based index is the MSCI World Total Return Net Index (CAD).

	Past Year	Past 3 Years	Past 5 Years	Past 10 Years	Since Inception
Series A	5.7	8.5	9.5	6.3	—
Benchmark	7.7	11.3	9.4	7.0	—
Broad-based index	29.4	11.0	13.5	12.4	—
Series D	6.6	9.4	10.4	7.2	—
Benchmark	7.7	11.3	9.4	7.0	—
Broad-based index	29.4	11.0	13.5	12.4	—
Series F	6.8	9.7	10.7	7.5	—
Benchmark	7.7	11.3	9.4	7.0	—
Broad-based index	29.4	11.0	13.5	12.4	—
Series O	7.9	10.8	11.8	8.6	—
Benchmark	7.7	11.3	9.4	7.0	—
Broad-based index	29.4	11.0	13.5	12.4	—

The returns of each series may vary because of differences in management fees and expenses. Benchmark and/or broad-based index returns do not include any costs of investing. See Management Discussion of Fund Performance for a discussion of performance relative to benchmark and/or broad-based indexes.

Inception dates are not provided for series that have been in existence for more than 10 years.

INDEX DESCRIPTIONS

Market Cap weighted blend of MSCI World Energy Total Return Net Index (CAD) and MSCI World Materials Total Return Net Index (CAD) This blended sub-index is a measure of the combined Canadian-dollar performance of stocks in the Energy and Materials sectors in the MSCI World Index.

MSCI World Total Return Net Index (CAD) This index is the capitalization-weighted index measuring the Canadian-dollar performance of selected companies listed on stock exchanges in countries around the world. The net total return index reinvests dividends after the deduction of withholding taxes, using (for international indexes) a tax rate applicable to non-resident institutional investors who do not benefit from double taxation treaties.
