MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objective and Strategies

The Fund seeks to provide investors with capital preservation and a reasonably consistent level of income. To achieve the Fund's investment objective, the portfolio manager invests primarily in a well-diversified portfolio of dividend-paying Canadian common shares, high-quality units of Canadian income trusts or real estate investment trusts ("REITs"), and other income-producing securities including bonds of the Canadian government, provincial governments and quality Canadian corporations and high-quality money market securities including asset backed commercial paper. The Fund's assets are concentrated in mid- and large-capitalization securities and it does not invest in businesses with excessive financial leverage.

Risk

There were no significant changes to the investment objective and strategies that affected the Fund's overall level of risk during the reporting period. The risks of investing in the Fund and the suitability of the Fund for investors remain as discussed in the Simplified Prospectus.

Results of Operations

The Fund's net asset value fell to \$812 million as of December 31, 2018, from \$933 million at the end of 2017. The decrease was due to a combination of net redemptions and investment losses.

Over the past year, the Fund's Series O units lost 8.0%, which outperformed the 8.9% decline in the benchmark. The Fund's return is after the deduction of expenses, while benchmark and broad-based index returns do not include any costs of investing. See the Financial Highlights section for the management expense ratios and the Past Performance section for the returns of any other series, which may vary because of differences in management fees and expenses.

The S&P/TSX Composite Index, Canada's equity benchmark, lagged many global markets in 2018 as a result of headwinds such as falling energy prices, poor competitiveness, a cooling housing market and trade uncertainty. In the Energy sector, a number of proposed crude-oil pipelines are stalled due to regulatory delays and/or the opposition of environmental activists. In the housing market, regulatory changes to mortgage underwriting have cooled housing activity. On the trade front, protectionism fears have eased following trade renegotiations culminating in Canada, the U.S. and Mexico agreeing to a deal that, if approved by U.S. Congress, would supplant the North American Free Trade Agreement.

In the Consumer Discretionary sector, a position in Dollarama held back the Fund's returns during the year. The Energy sector hurt performance, with positions in ARC Resources and Whitecap Resources having a large negative impact.

In the Information Technology sector, the Fund's overweight position in CGI added significantly to returns. Positions in the Communication Services sector also aided performance, led in part by a holding in Quebecor.

Recent Developments

The year ended with global equity markets in retreat as rising interest rates, diminished fiscal stimulus and protectionist trade wars impeded economic growth across most economies. Among the headwinds facing the Canadian economy in 2019 are a lack of pipeline space to transport oil, debt-burdened consumers and a weakening housing market, all of which may stifle Canadian growth in the year ahead. The federal government's recent decision to allow accelerated depreciation may help level the playing field.

Related-Party Transactions

Manager and Portfolio Manager

RBC GAM is an indirect, wholly owned subsidiary of Royal Bank and is the manager and principal portfolio manager of the Fund. RBC GAM is responsible for the Fund's day-to-day operations, provides investment advice and portfolio management services to the Fund and appoints distributors for the Fund. RBC GAM is paid a management fee by the Fund as compensation for its services. The Fund pays a fixed administration fee to RBC GAM, which, in turn, pays certain operating expenses of the Fund. Both the management fee and fixed administration fee are calculated and accrued daily as a percentage of the net asset value of each series of units of the Fund.

RBC GAM or its affiliates may earn fees and spreads in connection with various services provided to, or transactions with, the Fund, such as banking, brokerage, securities lending, foreign exchange and derivatives transactions. RBC GAM or its affiliates may earn a foreign exchange spread when unitholders switch between series of funds denominated in different currencies. The Fund also maintains bank accounts and overdraft provisions with Royal Bank for which Royal Bank may earn a fee. Affiliates of RBC GAM that provide services to the Fund in the course of their normal businesses are discussed below.

Distributors

RBC GAM, Royal Mutual Funds Inc., RBC Direct Investing Inc., RBC Dominion Securities Inc. and Phillips, Hager & North Investment Funds Ltd. are principal distributors of, or may distribute certain series of units of, the Fund. Dealers may receive an ongoing commission based on the total value of their clients' investment in certain series of units of the Fund.

Registrars

RBC GAM, RBC Investor Services Trust ("RBC IS") or Royal Bank (or a combination thereof) are the registrars of the Fund and keep records of who owns units of the Fund. The registrars earn a fee, which is paid by the manager from the fixed administration fee paid by the Fund.

Trustee and Custodian

RBC IS is the trustee and holds title to the Fund's property on behalf of unitholders. RBC IS is the custodian of the Fund and holds the assets of the Fund.

RBC IS earns a fee as the trustee and custodian, which is paid by the manager from the fixed administration fee paid by the Fund.

Securities Lending Agent

To the extent the Fund may engage in securities lending transactions, RBC IS may act as the Fund's securities lending agent. Any revenue earned on such securities lending is split between the Fund and the securities lending agent.

Brokers and Dealers

The Fund has established standard brokerage and dealing agreements at market rates with related parties. These related-party commissions were \$159,000 (2017 – \$107,000), or 12% (2017 – 7%) of the total transaction costs paid for this Fund.

Other Related-Party Transactions

Pursuant to applicable securities legislation, the Fund relied on the standing instructions from the Independent Review Committee with respect to one or more of the following transactions:

Related-Party Trading Activities

- (a) trades in securities of Royal Bank;
- (b) investments in the securities of issuers for which a related-party dealer acted as an underwriter during the distribution of such securities and the 60-day period following the conclusion of such distribution of the underwritten securities to the public;
- (c) purchases of equity and debt securities from or sales of equity or debt securities to a related-party dealer, where it acted as principal; and

Inter-Fund Trading

- (d) purchases or sales of securities of an issuer from or to another investment fund or managed account managed by RBC GAM.

The applicable standing instructions require that Related-Party Trading Activities and Inter-Fund Trading be conducted in accordance with RBC GAM policy and that RBC GAM advise the Independent Review Committee of a material breach of any standing instruction. RBC GAM policy requires that an investment decision in respect of Related-Party Trading Activities (i) is made free from any influence of Royal Bank or its associates or affiliates and without taking into account any consideration relevant to Royal Bank or its affiliates or associates, (ii) represents the business judgment of the portfolio manager, uninfluenced by considerations other than the best interests of the Fund, (iii) is in compliance with RBC GAM policies and procedures, and (iv) achieves a fair and reasonable result for the Fund. RBC GAM policy requires that an investment decision in respect of Inter-Fund Trading is in the best interests of each Fund.

¹ The management expense ratio ("MER") is based on expenses for the stated period, excluding commissions and other portfolio transaction costs, and is expressed as an annualized percentage of the daily average net asset value during the period. RBC GAM may, at its discretion and without notice to unitholders, waive or absorb certain operating expenses. MER includes the waiver or absorption by RBC GAM of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by RBC GAM.

² The Fund's portfolio turnover rate gives an indication of the level of activity employed by the portfolio manager. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between high turnover rate and the performance of the Fund. The portfolio turnover rate is not applicable to money market funds.

³ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period. The trading expense ratio is not applicable to fixed-income transactions.

Effective June 30, 2016, the management fees were changed in respect of Series A, Advisor Series, Series D and Series F units of the Fund. If the changes to the management fees would have been in effect throughout 2016, the adjusted MER for each series of the Fund would be: Series A – 1.86%, Advisor Series – 1.86%, Series D – 1.03% and Series F – 0.77%.

PAST PERFORMANCE

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional units of the Fund and would be lower if distributions were not reinvested. Past performance does not necessarily indicate how the Fund may perform in the future. A fund with more than 10 years of performance history is only permitted to disclose the past 10 years.

Year-by-Year Returns (%)

The bar chart indicates the Fund's performance for each of the years shown, and illustrates how the Fund's performance has changed from year to year.
