MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objective and Strategies

The Fund seeks to achieve a balance of income and long-term capital growth relative to its target retirement date of 2045 by investing primarily in investment funds that hold equity, fixed income, income trust and money market securities and exchange traded funds (“ETFs”), or by investing directly in such securities.

The Fund invests primarily in underlying funds. The Fund seeks to achieve its investment strategies by investing in two broad asset classes: equities and fixed income, either directly or indirectly through underlying funds and Canadian or U.S. ETFs. ETFs purchased by the Fund will initially be limited to those that track the investment performance of broad based real estate investment trust indices but may include other ETFs where permitted by applicable securities laws. At all times, the Fund will use a dynamic asset mix or glide path that adjusts the asset mix of the Fund on a quarterly basis relative to its target date.

Results of Operations

The Fund’s net asset value was \$301 million as of June 30, 2024.

Over the past six months, the Fund’s Series F units gained 5.8%. The Fund’s return is after the deduction of fees and expenses. See the Financial Highlights section for the management expense ratios and the Past Performance section for the returns of any other series, which may vary because of differences in management fees and expenses.

The global economy continued to demonstrate resilience in the face of higher-than-expected interest rates and geopolitical concerns. While inflation cooled sufficiently to prompt central-bank rate cuts in Canada and the eurozone, the U.S. Federal Reserve (the “Fed”) delayed rate reductions given that U.S. inflation remained higher than in most other developed countries. The wars in Ukraine and Gaza persisted, with little sign of ending.

Major government-bond markets posted losses in the first half of 2024, paring some of last year’s strong performance as economic growth and inflation stayed generally stronger than anticipated. Investors began 2024 expecting the Fed to cut interest rates at least three times in the first half of the year but were disappointed. The U.S. continued to report relatively strong economic growth and inflation. The Fed kept interest rates in a range of 5.25% to 5.50% and hinted that inflation would have to come down more for rates to decline. In contrast to the U.S., inflation and growth moderated more in the eurozone and Canada, leading to June rate cuts by their central banks. The drop in the Bank of Canada’s policy rate, to 4.75%

from 5.00%, was the first rate reduction since the pandemic. Returns in the fixed-income segment of the portfolio were held back by the Phillips, Hager & North Long Inflation-linked Bond Fund.

Equity markets climbed to new highs in the second quarter of 2024, although the gains were concentrated in a small group of the biggest technology stocks that have benefited from advances in artificial intelligence. Valuations in equity markets outside of U.S. large-caps were less demanding, meaning global equity markets could offer attractive returns should economic and corporate-profit growth remain positive. Emerging-market stocks continued to underperform their developed-market counterparts. Returns were bolstered by the RBC Global Equity Leaders Fund and the RBC QUBE Global Equity Fund.

Recent Developments

The portfolio manager’s base case has the economy experiencing a soft landing, inflation falling gradually toward central bankers’ 2% targets and central banks delivering modest monetary easing. Against this backdrop, prospective returns for fixed income appear solid, in the mid-single digits with further upside potential should the economy falter. Stocks still offer superior return potential versus bonds but the upside has been reduced by the latest rally and the equity-risk premium is narrow.

Related-Party Transactions

Manager and Portfolio Manager

RBC GAM is an indirect, wholly owned subsidiary of Royal Bank and is the manager and principal portfolio manager of the Fund. RBC GAM is responsible for the Fund’s day-to-day operations, provides investment advice and portfolio management services to the Fund and appoints distributors for the Fund. RBC GAM is paid a management fee by the Fund as compensation for its services. The Fund pays a fixed administration fee to RBC GAM, which, in turn, pays certain operating expenses of the Fund. Both the management fee and fixed administration fee are calculated and accrued daily as a percentage of the net asset value of each series of units of the Fund.

RBC GAM or its affiliates may earn fees and spreads in connection with various services provided to, or transactions with, the Fund, such as banking, brokerage, securities lending, foreign exchange and derivatives transactions. RBC GAM or its affiliates may earn a foreign exchange spread when unitholders switch between series of funds denominated in different currencies. The Fund also maintains bank accounts and overdraft provisions with Royal Bank for which Royal Bank may earn a fee. Affiliates of RBC GAM that provide services to the Fund in the course of their normal businesses are discussed below.

Distributors

RBC GAM, Royal Mutual Funds Inc., RBC Direct Investing Inc., RBC Dominion Securities Inc. and Phillips, Hager & North Investment Funds Ltd. are principal distributors of, or may distribute certain series of units of, the Fund. Dealers may receive an ongoing commission based on the total value of their clients' investment in certain series of units of the Fund.

Registrars

RBC GAM, RBC Investor Services Trust ("RBC IS") or Royal Bank (or a combination thereof) are the registrars of the Fund and keep records of who owns units of the Fund. The registrars earn a fee, which is paid by the manager from the fixed administration fee paid by the Fund.

Trustee and Custodian

RBC IS is the trustee and holds title to the Fund's property on behalf of unitholders. RBC IS is the custodian of the Fund and holds the assets of the Fund.

RBC IS earns a fee as the trustee and custodian, which is paid by the manager from the fixed administration fee paid by the Fund.

Securities Lending Agent

To the extent the Fund may engage in securities lending transactions, RBC IS may act as the Fund's securities lending agent. Any revenue earned on such securities lending is split between the Fund and the securities lending agent.

Other Related-Party Transactions

Pursuant to applicable securities legislation, the Fund relied on the standing instructions from the Independent Review Committee with respect to one or more of the following transactions:

Related-Party Trading Activities

- (a) trades in securities of Royal Bank;
- (b) investments in the securities of issuers for which a related-party dealer acted as an underwriter during the distribution of such securities and the 60-day period following the conclusion of such distribution of the underwritten securities to the public;
- (c) purchases of equity, debt securities or mortgages from or sales of equity, debt securities or mortgages to a related-party dealer, where it acted as principal; and

Inter-Fund Trading

- (d) purchases or sales of securities of an issuer from or to another investment fund or managed account managed by RBC GAM.

The applicable standing instructions require that Related-Party Trading Activities and Inter-Fund Trading be conducted in accordance with RBC GAM policy and that RBC GAM advise the Independent Review Committee of a material breach of any standing instruction. RBC GAM policy requires that an investment decision in respect of Related-Party Trading Activities (i) is made free from any influence of Royal Bank or its associates or affiliates and without taking into account any consideration relevant to Royal Bank or its affiliates or associates, (ii) represents the business judgment of the portfolio manager, uninfluenced by considerations other than the best interests of the Fund, (iii) is in compliance with RBC GAM policies and procedures, and (iv) achieves a fair and reasonable result for the Fund. RBC GAM policy requires that an investment decision in respect of Inter-Fund Trading is in the best interests of each Fund.

¹ The management expense ratio ("MER") is based on the direct expenses charged to the Fund and the Fund's proportionate share of the expenses of underlying funds, if any, for the stated period, excluding commissions and other portfolio transaction costs, and is expressed as an annualized percentage of the daily average net asset value during the period. RBC GAM may, at its discretion and without notice to unitholders, waive or absorb certain operating expenses. MER includes the waiver or absorption by RBC GAM of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by RBC GAM.

² The Fund's portfolio turnover rate gives an indication of the level of activity employed by the portfolio manager. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund. The portfolio turnover rate is not applicable to money market funds.

³ The trading expense ratio represents total commissions and other portfolio transaction costs of the Fund and the Fund's proportionate share of such costs of underlying funds expressed as an annualized percentage of daily average net asset value during the period. The trading expense ratio is not applicable to fixed-income transactions.

Effective January 1, 2020, the management fees for Series D units were reduced to 1.00% from 1.05% and for Series F units were reduced to 0.75% from 0.80%.

PAST PERFORMANCE

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional units of the Fund and would be lower if distributions were not reinvested. The performance information does not take into account sales, redemption, distribution, optional charges or income taxes payable that would have reduced returns or performance. Past performance does not necessarily indicate how the Fund may perform in the future. A fund with more than 10 years of performance history is only permitted to disclose the past 10 years.

Year-by-Year Returns (%)

The bar chart indicates the Fund's performance for each of the years shown, and illustrates how the Fund's performance has changed from year to year. The bar chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the end of the financial year or interim period.

Series F units have been available for sale to unitholders since August 20, 2018.

Inception dates are not provided for series that have been in existence for more than 10 years.

For the 12-month periods ended December 31 and the six-month period ended June 30, 2024.
