MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objective and Strategies

The Fund seeks to provide the potential for long-term capital growth by investing primarily in equity securities of Canadian companies and follows a socially responsible approach to investing.

The Fund's investment process begins by screening companies using environmental, social and governance ("ESG") exclusion criteria that determine its investable universe. RBC GAM has partnered with Sustainalytics to implement the ESG exclusion criteria and to identify issuers for the Fund's exclusion list.

The ESG exclusion criteria is divided into three categories: Product Involvement, ESG Controversies and Relative Scoring.

The Product Involvement criteria excludes securities of issuers that are engaged primarily in the production and distribution of alcohol, gaming, weapons, adult entertainment, cannabis or tobacco products. Involvement is based on revenues derived from these activities, based on data collected by Sustainalytics.

The ESG Controversies criteria excludes securities of issuers involved in 'Category 5 – Severe' or 'Category 4 – High' controversies, as determined by Sustainalytics' Controversy Rating. Sustainalytics uses a five-level ESG controversy scale for its Controversy Rating, with 'Category 1 – Low' representing the lowest severity level, and 'Category 5 – Severe' representing the highest.

The Relative Scoring criteria exclude securities of issuers assessed as 'worst-in-class'. In order to be classified as worst-in-class, Sustainalytics must assign an ESG Risk Rating of Severe Risk and the issuer's ESG Risk Rating must rank in the bottom quartile of its subindustry peer group, as defined by Sustainalytics.

RBC GAM then applies its multi-disciplined investment process to select securities for the Fund. This includes the incorporation of material environmental, social and governance ("ESG") factors to consider issuers' oversight and management of these material ESG factors.

On a monthly basis, Sustainalytics provides RBC GAM with a list of ineligible issuers based on the Fund's exclusion criteria. On a semi-annual basis, Sustainalytics conducts reviews of the Fund's holdings against the exclusion criteria.

Results of Operations

The Fund's net asset value was \$471 million as of June 30, 2022.

Over the past six months, the Fund's Series A units lost 10.6%. The Fund's return is after the deduction of fees and expenses. See the Financial Highlights section for the management expense ratios and the Past Performance section for the returns of any other series, which may vary because of differences in management fees and expenses.

Canada's stock market finished the first half of 2022 lower but was still among the best-performing global equity indexes, which gave back most of the gains made in 2021. The Canadian equity benchmark, the S&P/TSX Composite Index, briefly reached an all-time high in April, as its exposure to rising commodity prices offset a macroeconomic backdrop of high inflation, rising interest rates and slowing global economic growth. Canadian stocks were supported by the Energy sector during a period in which geopolitical uncertainty and improving demand led to higher oil and gas prices. The Energy and Materials sectors, which together represent about one-third of the Canadian benchmark, were the best-performing sectors in the first half of the year.

The Fund's relative exposure to Cenovus Energy, Suncor Energy and Magna International had the most positive impact on the Fund's returns, while exposure to Pembina, SNC-Lavalin and Brookfield Asset Management was negative for performance.

The sectors that had the most positive impact on the Fund's returns were Financials, Materials and Consumer Discretionary, while exposure to Consumer Staples, Real Estate and Industrials had a negative impact.

The Fund had overweight positions in Manulife Financial, Shaw Communications and Keyera and underweight positions in Barrick Gold, BCE and Alimentation Couche-Tard.

At the sector level, the Fund had overweight exposure to Financials, Industrials and Information Technology and underweight exposure to Consumer Staples, Materials and Industrials.

Sustainalytics conducted one review covering the Fund's holdings in the first half of 2022. Eligibility was determined in relation to the Environmental, Social and Governance ("ESG") criteria developed by RBC GAM in consultation with Sustainalytics. In the opinion of Sustainalytics, all holdings in the Fund were eligible in the latest review, based on the above criteria. During the first half of the year, no companies were removed from the Fund for failing to meet the ESG criteria.

Recent Developments

Economic growth has recovered from the pandemic lows, and consensus forecasts are for the Canadian economy to expand 4.1% in 2022 and 2.6% in 2023. Aiding Canada's economy are a healthy labour market, strong business investment and higher immigration. The big issue for the second half of 2022 is, however, inflation running at the highest levels in 40 years due to improving consumer demand, higher wages, rising commodity prices and supply disruptions. As a result, the Bank of Canada (the "BOC") is focused on restraining inflation even if economic growth is compromised. The BOC increased its benchmark rate to 1.5% in June from 0.25% as recently

as February and remains focused on slowing inflation to its 2% target from the 7.7% recorded for May. Further rate hikes are expected in the second half of the year.

Effective April 11, 2022, all Advisor Series units with a deferred sales charge option were re-designated as Series A units. Any redemption fees associated with such re-designations were waived by RBC GAM.

Related-Party Transactions

Manager, Trustee and Portfolio Manager

RBC GAM is an indirect, wholly owned subsidiary of Royal Bank of Canada (“Royal Bank”) and is the manager, trustee and portfolio manager of the Fund. RBC GAM is responsible for the Fund’s day-to-day operations, holds title to the Fund’s property on behalf of its unitholders, provides investment advice and portfolio management services to the Fund and appoints distributors for the Fund. RBC GAM is paid a management fee by the Fund as compensation for its services. The Fund pays a fixed administration fee to RBC GAM, which, in turn, pays certain operating expenses of the Fund. Both the management fee and fixed administration fee are calculated and accrued daily as a percentage of the net asset value of each series of units of the Fund. RBC GAM, as trustee, earns a fee, which is paid by the manager from the fixed administration fee paid by the Fund.

RBC GAM or its affiliates may earn fees and spreads in connection with various services provided to, or transactions with, the Fund, such as banking, brokerage, securities lending, foreign exchange and derivatives transactions. RBC GAM or its affiliates may earn a foreign exchange spread when unitholders switch between series of funds denominated in different currencies. The Fund also maintains bank accounts and overdraft provisions with Royal Bank for which Royal Bank may earn a fee. Affiliates of RBC GAM that provide services to the Fund in the course of their normal businesses are discussed below.

Distributors

RBC GAM, Royal Mutual Funds Inc., RBC Direct Investing Inc., RBC Dominion Securities Inc. and Phillips, Hager & North Investment Funds Ltd. are principal distributors of, or may distribute certain series of units of, the Fund. Dealers may receive an ongoing commission based on the total value of their clients’ investment in certain series of units of the Fund.

Registrars

RBC GAM, RBC Investor Services Trust (“RBC IS”) or Royal Bank (or a combination thereof) are the registrars of the Fund and keep records of who owns units of the Fund. The registrars earn a fee, which is paid by the manager from the fixed administration fee paid by the Fund.

Custodian

RBC IS is the custodian and holds the assets of the Fund. RBC IS earns a fee as the custodian, which is paid by the manager from the fixed administration fee paid by the Fund.

Securities Lending Agent

To the extent the Fund may engage in securities lending transactions, RBC IS may act as the Fund’s securities lending agent. Any revenue earned on such securities lending is split between the Fund and the securities lending agent.

Brokers and Dealers

The Fund has established standard brokerage and dealing agreements at market rates with related parties. For the periods ended June 30, 2022 and 2021, the related-party commissions were \$11,000 (2021 – \$11,000) or 14% (2021 – 15%) of the total transaction costs paid for this Fund.

Other Related-Party Transactions

Pursuant to applicable securities legislation, the Fund relied on the standing instructions from the Independent Review Committee with respect to one or more of the following transactions:

Related-Party Trading Activities

- (a) trades in securities of Royal Bank;
- (b) investments in the securities of issuers for which a related-party dealer acted as an underwriter during the distribution of such securities and the 60-day period following the conclusion of such distribution of the underwritten securities to the public;
- (c) purchases of equity and debt securities from or sales of equity or debt securities to a related-party dealer, where it acted as principal; and

Inter-Fund Trading

- (d) purchases or sales of securities of an issuer from or to another investment fund or managed account managed by RBC GAM.

The applicable standing instructions require that Related-Party Trading Activities and Inter-Fund Trading be conducted in accordance with RBC GAM policy and that RBC GAM advise the Independent Review Committee of a material breach of any standing instruction. RBC GAM policy requires that an investment decision in respect of Related-Party Trading Activities (i) is made free from any influence of Royal Bank or its associates or affiliates and without taking into account any consideration relevant to Royal Bank or its affiliates or associates, (ii) represents the business judgment of the portfolio manager, uninfluenced by considerations other than the best interests of the Fund, (iii) is in compliance with RBC GAM policies and procedures, and (iv) achieves a fair and reasonable result for the Fund. RBC GAM policy requires that an investment decision in respect of Inter-Fund Trading is in the best interests of each Fund.

¹ The management expense ratio ("MER") is based on the direct expenses charged to the Fund and the Fund's proportionate share of the expenses of underlying funds, if any, for the stated period, excluding commissions and other portfolio transaction costs, and is expressed as an annualized percentage of the daily average net asset value during the period. RBC GAM may, at its discretion and without notice to unitholders, waive or absorb certain operating expenses. MER includes the waiver or absorption by RBC GAM of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by RBC GAM.

² The Fund's portfolio turnover rate gives an indication of the level of activity employed by the portfolio manager. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund. The portfolio turnover rate is not applicable to money market funds.

³ The trading expense ratio represents total commissions and other portfolio transaction costs of the Fund and the Fund's proportionate share of such costs of underlying funds expressed as an annualized percentage of daily average net asset value during the period. The trading expense ratio is not applicable to fixed-income transactions.

⁴ From May 19, 2017.

Effective June 30, 2017, the administration fees for Series A units were reduced to 0.10% from 0.15%. If the changes to the administration fees would have been in effect throughout the financial year ended December 31, 2017, the adjusted MER for each series of the Fund would be: Series A – 1.87%.

PAST PERFORMANCE

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional units of the Fund and would be lower if distributions were not reinvested. Past performance does not necessarily indicate how the Fund may perform in the future. A fund with more than 10 years of performance history is only permitted to disclose the past 10 years.

Year-by-Year Returns (%)

The bar chart indicates the Fund’s performance for each of the years shown, and illustrates how the Fund’s performance has changed from year to year. The bar chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the end of the financial year or interim period.

Series O units have been available for sale to unitholders since May 19, 2017.

Inception dates are not provided for series that have been in existence for more than 10 years.

Advisor Series units with initial sales charge and/or low-load sales charge options were re-designated as Series A units effective August 4, 2020. Advisor Series units with a deferred sales charge option were re-designated as Series A units effective April 11, 2022.
