MANAGEMENT DISCUSSION OF FUND PERFORMANCE (in USD)

Investment Objective and Strategies

The Fund seeks to provide current income by investing in short-term U.S. fixed-income securities. The Fund invests primarily in a well-diversified portfolio of short-term fixed-income securities issued or guaranteed by the U.S. Treasury and U.S. government and its agencies.

Results of Operations

The Fund's net asset value was \$13 million as of June 30, 2023.

Over the past six months, the Fund's Series F units gained 1.0%. The Fund's return is after the deduction of fees and expenses. See the Financial Highlights section for the management expense ratios and the Past Performance section for the returns of any other series, which may vary because of differences in management fees and expenses.

U.S. fixed income generated gains during the first half of 2023, as investors were able to earn the extra income available on their investments without suffering the capital losses that had characterized the past two years. The U.S. Federal Reserve (the "Fed") continued to use monetary policy to combat historically high inflation, with higher interest rates and tighter borrowing conditions leading to a rising risk of a recession sometime later this year.

In March, stress in the financial system emerged following the collapse of Silicon Valley Bank and concern that contagion risk would spread to other U.S. regional banks. However, financial markets had settled down by the end of the period, and the Fed indicated that it was approaching the end of the current round of rate hikes as inflation showed clear signs of retreating toward the 2% target. In June, the Fed took its first pause in hiking rates in over a year while signalling that one or two more increases may be necessary. The U.S. economy remained resilient all the while on continued strength in the labour market and strong consumer demand. Short-term Treasury yields rose over the period as the Fed pushed its benchmark interest rate higher, while longer-term rates fell modestly.

The Fund's returns were aided by generally higher Treasury-bond yields, which generated higher income. The portfolio's relative performance benefited from overweight positions in taxable municipal bonds, federal-agency-backed commercial mortgage-backed securities ("Agency CMBS") and federal-agency-backed mortgage-backed securities ("Agency MBS"). These bonds provide higher yields than comparable Treasury and government-related securities and act as a buffer against the negative impact of rising yields.

Recent Developments

The sub-advisor will continue efforts to maximize the Fund's yield by focusing on investments such as taxable municipal bonds, Agency CMBS and Agency MBS. The Fund will continue to maintain a portfolio that is not overly susceptible to the impact of interest-rate changes.

Effective January 1, 2023, Suromitra Sanatani was appointed as Chair of the Independent Review Committee ("the IRC"). Effective February 1, 2023, Joanne Vézina was appointed as a member of the IRC. Effective March 1, 2023, Enrique Cuyegkeng was appointed as a member of the IRC.

Related-Party Transactions

Manager, Trustee and Portfolio Manager

RBC GAM is an indirect, wholly owned subsidiary of Royal Bank of Canada ("Royal Bank") and is the manager, trustee and portfolio manager of the Fund. RBC GAM is responsible for the Fund's day-to-day operations, holds title to the Fund's property on behalf of its unitholders, provides investment advice and portfolio management services to the Fund and appoints distributors for the Fund.

RBC GAM is paid a management fee by the Fund as compensation for its services. The Fund pays a fixed administration fee to RBC GAM, which, in turn, pays certain operating expenses of the Fund. Both the management fee and fixed administration fee are calculated and accrued daily as a percentage of the net asset value of each series of units of the Fund. RBC GAM, as trustee, earns a fee, which is paid by the manager from the fixed administration fee paid by the Fund.

RBC GAM or its affiliates may earn fees and spreads in connection with various services provided to, or transactions with, the Fund, such as banking, brokerage, securities lending, foreign exchange and derivatives transactions. RBC GAM or its affiliates may earn a foreign exchange spread when unitholders switch between series of funds denominated in different currencies. The Fund also maintains bank accounts and overdraft provisions with Royal Bank for which Royal Bank may earn a fee. Affiliates of RBC GAM that provide services to the Fund in the course of their normal businesses are discussed below.

Sub-Advisor

RBC Global Asset Management (U.S.) Inc. is the sub-advisor and provides investment advice for the Fund. The sub-advisor earns a fee which is calculated and accrued daily as a percentage of the net asset value of each series of units of the Fund. The sub-advisor is paid by the manager from the management fee paid by the Fund.

Distributors

RBC GAM, Royal Mutual Funds Inc., RBC Direct Investing Inc., RBC Dominion Securities Inc. and Phillips, Hager & North Investment Funds Ltd. are principal distributors of, or may distribute certain series of units of, the Fund. Dealers may receive an ongoing commission based on the total value of their clients' investment in certain series of units of the Fund.

Registrars

RBC GAM, RBC Investor Services Trust ("RBC IS") or Royal Bank (or a combination thereof) are the registrars of the Fund and keep records of who owns units of the Fund. The registrars earn a fee, which is paid by the manager from the fixed administration fee paid by the Fund.

Custodian

RBC IS is the custodian and holds the assets of the Fund. RBC IS earns a fee as the custodian, which is paid by the manager from the fixed administration fee paid by the Fund.

Securities Lending Agent

To the extent the Fund may engage in securities lending transactions, RBC IS may act as the Fund's securities lending agent. Any revenue earned on such securities lending is split between the Fund and the securities lending agent.

Other Related-Party Transactions

Related-Party Trading Activities

- (a) trades in securities of Royal Bank;

- (c) purchases of equity and debt securities from or sales of equity or debt securities to a related-party dealer, where it acted as principal; and

Inter-Fund Trading

- (d) purchases or sales of securities of an issuer from or to another investment fund or managed account managed by RBC GAM.

The applicable standing instructions require that Related-Party Trading Activities and Inter-Fund Trading be conducted in accordance with RBC GAM policy and that RBC GAM advise the Independent Review Committee of a material breach of any standing instruction. RBC GAM policy requires that an investment decision in respect of Related-Party Trading Activities (i) is made free from any influence of Royal Bank or its associates or affiliates and without taking into account any consideration relevant to Royal Bank or its affiliates or associates, (ii) represents the business judgment of the portfolio manager, uninfluenced by considerations other than the best interests of the Fund, (iii) is in compliance with RBC GAM policies and procedures, and (iv) achieves a fair and reasonable result for the Fund. RBC GAM policy requires that an investment decision in respect of Inter-Fund Trading is in the best interests of each Fund.

¹ The management expense ratio ("MER") is based on the direct expenses charged to the Fund and the Fund's proportionate share of the expenses of underlying funds, if any, for the stated period, excluding commissions and other portfolio transaction costs, and is expressed as an annualized percentage of the daily average net asset value during the period. RBC GAM may, at its discretion and without notice to unitholders, waive or absorb certain operating expenses. MER includes the waiver or absorption by RBC GAM of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by RBC GAM.

² The Fund's portfolio turnover rate gives an indication of the level of activity employed by the portfolio manager. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund. The portfolio turnover rate is not applicable to money market funds.

³ The trading expense ratio represents total commissions and other portfolio transaction costs of the Fund and the Fund's proportionate share of such costs of underlying funds expressed as an annualized percentage of daily average net asset value during the period. The trading expense ratio is not applicable to fixed-income transactions.

⁴ From January 14, 2021.

PAST PERFORMANCE (in USD)

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional units of the Fund and would be lower if distributions were not reinvested. The performance information does not take into account sales, redemption, distribution, optional charges or income taxes payable that would have reduced returns or performance. Past performance does not necessarily indicate how the Fund may perform in the future. A fund with more than 10 years of performance history is only permitted to disclose the past 10 years.

Inception dates are not provided for series that have been in existence for more than 10 years.
