The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objective and Strategies

The Fund seeks to provide long-term capital growth by investing primarily in equity securities of U.S. small-cap companies that are deemed to be undervalued in order to provide broad exposure to economic growth opportunities in the equity markets.

The Fund's investment process is based primarily on fundamental research, although the sub-advisor will also consider quantitative and technical factors. Stock selection decisions are ultimately based on an understanding of the company, its business and its outlook. The sub-advisor diversifies the Fund across industries in the U.S. market and selects companies based on strong management, focused business models and the potential for future growth in earnings and cash flow.

Results of Operations

The Fund's net asset value was \$66 million as of June 30, 2024.

Over the past six months, the Fund's Series F units gained 3.9%. The Fund's return is after the deduction of fees and expenses. See the Financial Highlights section for the management expense ratios and the Past Performance section for the returns of any other series, which may vary because of differences in management fees and expenses.

U.S. equity markets posted solid gains in the first half of 2024 as the economy remained robust and the odds of a recession receded. However, inflation persisted above the U.S. Federal Reserve's (the "Fed") 2% target, raising doubts about when and how quickly the Fed would decrease its policy rate. During the first half of 2024, small-cap stock indexes underperformed large-cap indexes, which were propelled mainly by the largest U.S. companies. Growth stocks outperformed their value-stock counterparts in both large and small market capitalizations.

The Fund performed well during the period due to favourable stock selection and sector allocation. Returns from stock selection in the Information Technology, Health Care and Communication Services sectors more than offset the negative impact of stock selection in Industrials and Energy. The portfolio's overweight positions in the Materials and Industrials sectors boosted relative returns.

Individual stocks that had a positive impact on returns were Super Micro Computer, Onto Innovation and MKS Instruments, while Par Pacific and ACCO Brands had a negative effect.

Recent Developments

Surveys indicate that people who run small businesses lack confidence in the direction of the economy due to high borrowing costs, debt-laden consumers and challenges finding qualified workers in a tight labour market. Companies with solid balance

sheets and strong cash flows will have a competitive advantage in this environment, as will those that benefit from government spending on infrastructure and inducements aimed at bringing production back to North America amid geopolitical uncertainty.

Related-Party Transactions

Manager, Trustee and Portfolio Manager

RBC GAM is an indirect, wholly owned subsidiary of Royal Bank of Canada ("Royal Bank") and is the manager, trustee and portfolio manager of the Fund. RBC GAM is responsible for the Fund's day-to-day operations, holds title to the Fund's property on behalf of its unitholders, provides investment advice and portfolio management services to the Fund and appoints distributors for the Fund. RBC GAM is paid a management fee by the Fund as compensation for its services. The Fund pays a fixed administration fee to RBC GAM, which, in turn, pays certain operating expenses of the Fund. Both the management fee and fixed administration fee are calculated and accrued daily as a percentage of the net asset value of each series of units of the Fund. RBC GAM, as trustee, earns a fee, which is paid by the manager from the fixed administration fee paid by the Fund.

RBC GAM or its affiliates may earn fees and spreads in connection with various services provided to, or transactions with, the Fund, such as banking, brokerage, securities lending, foreign exchange and derivatives transactions. RBC GAM or its affiliates may earn a foreign exchange spread when unitholders switch between series of funds denominated in different currencies. The Fund also maintains bank accounts and overdraft provisions with Royal Bank for which Royal Bank may earn a fee. Affiliates of RBC GAM that provide services to the Fund in the course of their normal businesses are discussed below.

Sub-Advisor

The sub-advisor earns a fee which is calculated and accrued daily as a percentage of the net asset value of each series of units of the Fund. The sub-advisor is paid by the manager from the management fee paid by the Fund.

Distributors

RBC GAM, Royal Mutual Funds Inc., RBC Direct Investing Inc., RBC Dominion Securities Inc. and Phillips, Hager & North Investment Funds Ltd. are principal distributors of, or may distribute certain series of units of, the Fund. Registrars

RBC GAM, RBC Investor Services Trust ("RBC IS") or Royal Bank (or a combination thereof) are the registrars of the Fund and keep records of who owns units of the Fund. The registrars earn a fee, which is paid by the manager from the fixed administration fee paid by the Fund.

The applicable standing instructions require that Related-Party Trading Activities and Inter-Fund Trading be conducted in accordance with RBC GAM policy and that RBC GAM advise the Independent Review Committee of a material breach of any standing instruction. ¹ The management expense ratio ("MER") is based on the direct expenses charged to the Fund and the Fund's proportionate share of the expenses of underlying funds, if any, for the stated period, excluding commissions and other portfolio transaction costs, and is expressed as an annualized percentage of the daily average net asset value during the period. RBC GAM may, at its discretion and without notice to unitholders, waive or absorb certain operating expenses. MER includes the waiver or absorption by RBC GAM of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by RBC GAM.

² The Fund's portfolio turnover rate gives an indication of the level of activity employed by the portfolio manager. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund. The portfolio turnover rate is not applicable to money market funds.

³ The trading expense ratio represents total commissions and other portfolio transaction costs of the Fund and the Fund's proportionate share of such costs of underlying funds expressed as an annualized percentage of daily average net asset value during the period. The trading expense ratio is not applicable to fixed-income transactions.

Management Fees and Administration Fees

Management fees and administration fees of each series of the Fund are payable to RBC GAM and calculated at the following annual percentages, before GST/HST, of the daily net asset value of each series of the Fund. The management fee, breakdown of services received in consideration of the management fee, as a percentage of the management fee, and the administration fee for each series are as follows:

	Management Fees	Breakdown of Services		Administration Fees
		Distribution	Other*	
Series A	1.75%	57%	43%	0.10%
Series D	1.00%	25%	75%	0.10%
Series F	0.75%	–	100%	0.10%
Series O	n/a	n/a	n/a	0.02%

Series O – no management fees are paid by the Fund with respect to Series O units. Series O unitholders pay a negotiated fee directly to RBC GAM for investment-counselling services.

* Includes all costs related to management, trustee, investment advisory services, general administration and profit.

PAST PERFORMANCE

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional units of the Fund and would be lower if distributions were not reinvested. The performance information does not take into account sales, redemption, distribution, optional charges or income taxes payable that would have reduced returns or performance. Past performance does not necessarily indicate how the Fund may perform in the future. A fund with more than 10 years of performance history is only permitted to disclose the past 10 years.

Year-by-Year Returns (%)

The bar chart indicates the Fund's performance for each of the years shown, and illustrates how the Fund's performance has changed from year to year. The bar chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the end of the financial year or interim period.

Series F (%)

Series O (%)

Series A, Series D, Series F and Series O units have been available for sale to unitholders since September 14, 2015.

Inception dates are not provided for series that have been in existence for more than 10 years.

For the 12-month periods ended December 31 and the six-month period ended June 30, 2024.
