## MANAGEMENT DISCUSSION OF FUND PERFORMANCE

### Investment Objective and Strategies

The Fund seeks to provide a high level of monthly cash flow, relatively tax-efficient distributions consisting primarily of returns of capital, capital gains and interest income, as well as the potential for modest capital growth.

To achieve its objective, the Fund invests primarily in a diversified portfolio of Canadian equity securities including common and preferred shares, real estate investment trusts and income trusts. The Fund may also invest in fixed-income securities, such as government and corporate bonds, debentures and notes.

### Results of Operations

The Fund's net asset value was \$3.1 billion as of June 30, 2023.

Over the past six months, the Fund's Series F units gained 3.3%. The Fund's return is after the deduction of fees and expenses. See the Financial Highlights section for the management expense ratios and the Past Performance section for the returns of any other series, which may vary because of differences in management fees and expenses.

The Fund made monthly distributions of 10.90 cents per Series F unit in the first half of 2023.

Canadian equities climbed in the first half of 2023, fuelled by rebounding technology stocks, on expectations that falling inflation would let the Bank of Canada slow the pace at which it raises interest rates. The Information Technology sector in Canada benefited from the global recovery following a plunge in the sector last year. Returns in bank stocks were limited as higher financing and operating costs squeezed profits, while rising interest rates pushed projected loan losses higher.

The Fund's relative exposure to PulteGroup, Russel Metals and Canadian Tire had the most positive impact on the Fund's returns, while exposure to Constellation Software, Nutrien and Alimentation Couche-Tard was negative for performance.

The sectors that had the most positive impact on the Fund's returns were Industrials, Energy and Consumer Discretionary, while exposure to Materials, Information Technology and Financials had a negative impact.

The Fund had overweight positions in AltaGas, Nutrien and Agnico Eagle Mines and underweight positions in Canadian National Railway, Alimentation Couche-Tard and Constellation Software.

At the sector level, the Fund had overweight exposure to Real Estate, Energy and Utilities and underweight exposure to Consumer Staples, Financials and Industrials.

### Recent Developments

Investors continue to focus on macroeconomic factors including inflation and interest rates, but recent data points do not yet suggest a conclusive path for equities. Inflation continues to moderate, leading to expectations that central banks are nearing the end of a series of rapid interest-rate hikes. Economists continue to factor in a high probability of a recession due to tighter monetary policy, although equity markets appear to be reflecting a lower chance the economy will slow significantly.

Effective January 1, 2023, Suromitra Sanatani was appointed as Chair of the Independent Review Committee ("the IRC"). Effective February 1, 2023, Joanne Vézina was appointed as a member of the IRC. Effective March 1, 2023, Enrique Cuyegkeng was appointed as a member of the IRC.

### Related-Party Transactions

#### *Manager, Trustee and Portfolio Manager*

RBC GAM is an indirect, wholly owned subsidiary of Royal Bank of Canada ("Royal Bank") and is the manager, trustee and portfolio manager of the Fund. RBC GAM is responsible for the Fund's day-to-day operations, holds title to the Fund's property on behalf of its unitholders, provides investment advice and portfolio management services to the Fund and appoints distributors for the Fund. RBC GAM is paid a management fee by the Fund as compensation for its services. The Fund pays a fixed administration fee to RBC GAM, which, in turn, pays certain operating expenses of the Fund. Both the management fee and fixed administration fee are calculated and accrued daily as a percentage of the net asset value of each series of units of the Fund. RBC GAM, as trustee, earns a fee, which is paid by the manager from the fixed administration fee paid by the Fund.

RBC GAM or its affiliates may earn fees and spreads in connection with various services provided to, or transactions with, the Fund, such as banking, brokerage, securities lending, foreign exchange and derivatives transactions. RBC GAM or its affiliates may earn a foreign exchange spread when unitholders switch between series of funds denominated in different currencies. The Fund also maintains bank accounts and overdraft provisions with Royal Bank for which Royal Bank may earn a fee. Affiliates of RBC GAM that provide services to the Fund in the course of their normal businesses are discussed below.

#### *Distributors*

RBC GAM, Royal Mutual Funds Inc., RBC Direct Investing Inc., RBC Dominion Securities Inc. and Phillips, Hager & North Investment Funds Ltd. are principal distributors of, or may distribute certain series of units of, the Fund. Dealers may receive an ongoing commission based on the total value of their clients' investment in certain series of units of the Fund.

### **Registrars**

RBC GAM, RBC Investor Services Trust ("RBC IS") or Royal Bank (or a combination thereof) are the registrars of the Fund and keep records of who owns units of the Fund. The registrars earn a fee, which is paid by the manager from the fixed administration fee paid by the Fund.

### **Custodian**

RBC IS is the custodian and holds the assets of the Fund. RBC IS earns a fee as the custodian, which is paid by the manager from the fixed administration fee paid by the Fund.

### **Securities Lending Agent**

To the extent the Fund may engage in securities lending transactions, RBC IS may act as the Fund's securities lending agent. Any revenue earned on such securities lending is split between the Fund and the securities lending agent.

### **Brokers and Dealers**

The Fund has established standard brokerage and dealing agreements at market rates with related parties. For the periods ended June 30, 2023 and 2022, the related-party commissions were \$109,000 (2022 – \$117,000) or 20% (2022 – 11%) of the total transaction costs paid for this Fund.

### **Other Related-Party Transactions**

Pursuant to applicable securities legislation, the Fund relied on the standing instructions from the Independent Review Committee with respect to one or more of the following transactions:

#### *Related-Party Trading Activities*

- (a) trades in securities of Royal Bank;
- (b) investments in the securities of issuers for which a related-party dealer acted as an underwriter during the distribution of such securities and the 60-day period following the conclusion of such distribution of the underwritten securities to the public;
- (c) purchases of equity and debt securities from or sales of equity or debt securities to a related-party dealer, where it acted as principal; and

#### *Inter-Fund Trading*

- (d) purchases or sales of securities of an issuer from or to another investment fund or managed account managed by RBC GAM.

The applicable standing instructions require that Related-Party Trading Activities and Inter-Fund Trading be conducted in accordance with RBC GAM policy and that RBC GAM advise the Independent Review Committee of a material breach of any standing instruction. RBC GAM policy requires that an investment decision in respect of Related-Party Trading Activities (i) is made free from any influence of Royal Bank or its associates or affiliates and without taking into account any consideration relevant to Royal Bank or its affiliates or associates, (ii) represents the business judgment of the portfolio manager, uninfluenced by considerations other than the best interests of the Fund, (iii) is in compliance with RBC GAM policies and procedures, and (iv) achieves a fair and reasonable result for the Fund. RBC GAM policy requires that an investment decision in respect of Inter-Fund Trading is in the best interests of each Fund.

<sup>1</sup> The management expense ratio ("MER") is based on the direct expenses charged to the Fund and the Fund's proportionate share of the expenses of underlying funds, if any, for the stated period, excluding commissions and other portfolio transaction costs, and is expressed as an annualized percentage of the daily average net asset value during the period. RBC GAM may, at its discretion and without notice to unitholders, waive or absorb certain operating expenses. MER includes the waiver or absorption by RBC GAM of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by RBC GAM.

<sup>2</sup> The Fund's portfolio turnover rate gives an indication of the level of activity employed by the portfolio manager. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund. The portfolio turnover rate is not applicable to money market funds.

<sup>3</sup> The trading expense ratio represents total commissions and other portfolio transaction costs of the Fund and the Fund's proportionate share of such costs of underlying funds expressed as an annualized percentage of daily average net asset value during the period. The trading expense ratio is not applicable to fixed-income transactions.

<sup>4</sup> From July 12, 2021.

<sup>5</sup> From March 2, 2023.

Effective March 1, 2020, the administration fees for Series A units were reduced to 0.10% from 0.15%. If the changes to the administration fees would have been in effect throughout the financial year ended December 31, 2020, the adjusted MER for each series of the Fund would be: Series A – 1.87%.

As of June 30, 2023, the closing market price of ETF Series units was \$19.21.

**Management Fees and Administration Fees**

Management fees and administration fees of each series of the Fund are payable to RBC GAM and calculated at the following annual percentages, before GST/HST, of the daily net asset value of each series of the Fund. The management fee, breakdown of services received in consideration of the management fee, as a percentage of the management fee, and the administration fee for each series are as follows:

	Management Fees	Breakdown of Services		Administration Fees
		Distribution	Other*	
Series A	1.60%	63%	37%	0.10%
Series T5	1.60%	63%	37%	0.10%

**PAST PERFORMANCE**

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional units of the Fund and would be lower if distributions were not reinvested. The performance information does not take into account sales, redemption, distribution, optional charges or income taxes payable that would have reduced returns or performance. Past performance does not necessarily indicate how the Fund may perform in the future. A fund with more than 10 years of performance history is only permitted to disclose the past 10 years.

**Year-by-Year Returns (%)**

The bar chart indicates the Fund's performance for each of the years shown, and illustrates how the Fund's performance has changed from year to year. The bar chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the end of the financial year or interim period.
