MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objective and Strategies

The Fund seeks to provide long-term capital growth by investing primarily in equity securities of major companies domiciled in developed countries outside of North America.

The Fund invests in stocks that have undergone a selection process emphasizing companies with a leading market position or lucrative niche, consistent and predictable profit growth and strong management teams.

Results of Operations

The Fund's net asset value was \$195 million as of June 30, 2023.

Over the past six months, the Fund's Series F units gained 6.9%. The Fund's return is after the deduction of fees and expenses. See the Financial Highlights section for the management expense ratios and the Past Performance section for the returns of any other series, which may vary because of differences in management fees and expenses.

Developed stock markets in Asia and Europe recorded gains in the first six months of 2023, as the global economy proved more resilient than expected. European equities outperformed most other regions early in 2023, finding support from the reopening of the Chinese economy and falls in oil and gas prices. Declines in inflation from uncomfortably high levels were taken by investors as evidence that interest rates were close to peaking.

Stocks pulled back in March after the collapse of several mid-sized U.S. banks, and related financial instability ultimately resulted in Credit Suisse, a 167-year-old financial institution, being forced to accept a government-arranged takeover by the rival Swiss bank UBS. Inflation in Europe was still well above acceptable levels during the period, and the European Central Bank and the Bank of England continued to raise interest rates in response.

Japanese equities performed well on the back of solid economic activity, low inflation relative to Japan's peers and wage hikes, which supported consumer spending. In a boost for exports, the Japanese yen depreciated given much higher U.S. interest rates, and investors were impressed with regulatory steps designed to improve shareholder returns and corporate governance. The economic recovery in China ended up being weaker than expected. In May, Japan announced plans to restrict exports of advanced semiconductor-manufacturing equipment to China, with China in turn banning a major U.S. chipmaker from participating in infrastructure projects.

Among the Fund's top-performing positions was Ryanair, an Irish airline. Returns were limited by the Fund's position in CSL Ltd., an Australian biotechnology company. Nintendo, a Japanese video-game company, was added to the portfolio during the period.

Among other individual stocks in Europe, LVMH, the luxury-goods company, was the biggest contributor to the Fund's performance, and ASML Holding ranked second. Aker BP, an energy company, held back returns the most.

Recent Developments

European equities had until recently outperformed most other global equity markets, especially as corporate earnings repeatedly surprised investors. Issues are emerging, however, to challenge this positive trend. Higher-than-expected inflation, especially in the U.K., means that European central banks are likely farther from ending policy tightening than other regions. Moreover, manufacturing has slowed considerably, and tighter access to loans is beginning to hurt companies. The war in Ukraine continues to demand much from the region.

The sub-advisor expects Asia's economic growth to remain steady during the second half of 2023, with solid economic growth in Japan. Growth forecasts for China have been cut as the post-COVID-19 recovery has lost steam and the property sector remains weak. In Asia, the current round of interest-rate hikes is largely over, in the sub-advisor's view, and the sub-advisor expects monetary easing as soon as late 2023.

Effective January 1, 2023, Suromitra Sanatani was appointed as Chair of the Independent Review Committee ("the IRC"). Effective February 1, 2023, Joanne Vézina was appointed as a member of the IRC. Effective March 1, 2023, Enrique Cuyegkeng was appointed as a member of the IRC.

RBC GAM is responsible for the Fund's day-to-day operations, holds title to the Fund's property on behalf of its unitholders, provides investment advice and portfolio management services to the Fund and appoints distributors for the Fund. RBC GAM is paid a management fee by the Fund as compensation for its services. The Fund pays a fixed administration fee to RBC GAM, which, in turn, pays certain operating expenses of the Fund. Both the management fee and fixed administration fee are calculated and accrued daily as a percentage of the net asset value of each series of units of the Fund. RBC GAM, as trustee, earns a fee, which is paid by the manager from the fixed administration fee paid by the Fund.

RBC GAM or its affiliates may earn fees and spreads in connection with various services provided to, or transactions with, the Fund, such as banking, brokerage, securities lending, foreign exchange and derivatives transactions. RBC GAM or its affiliates may earn a foreign exchange spread when unitholders switch between series of funds denominated in different currencies. The Fund also maintains bank accounts and overdraft provisions with Royal Bank for which Royal Bank may earn a fee. Affiliates of RBC GAM that provide services to the Fund in the course of their normal businesses are discussed below.

Sub-Advisors

RBC Global Asset Management (UK) Limited and RBC Global Asset Management (Asia) Limited are the sub-advisors and provide investment advice for the Fund. The sub-advisors earn a fee which is calculated and accrued daily as a percentage of the net asset value of each series of units of the Fund. The sub-advisors are paid by the manager from the management fee paid by the Fund.

Distributors

RBC GAM, Royal Mutual Funds Inc., RBC Direct Investing Inc., RBC Dominion Securities Inc. and Phillips, Hager & North Investment Funds Ltd. are principal distributors of, or may distribute certain series of units of, the Fund. Dealers may receive an ongoing commission based on the total value of their clients' investment in certain series of units of the Fund.

Registrars

RBC GAM, RBC Investor Services Trust ("RBC IS") or Royal Bank (or a combination thereof) are the registrars of the Fund and keep records of who owns units of the Fund. The registrars earn a fee, which is paid by the manager from the fixed administration fee paid by the Fund.

To the extent the Fund may engage in securities lending transactions, RBC IS may act as the Fund's securities lending agent. Any revenue earned on such securities lending is split between the Fund and the securities lending agent.

Other Related-Party Transactions

Pursuant to applicable securities legislation, the Fund relied on the standing instructions from the Independent Review Committee with respect to one or more of the following transactions:

Related-Party Trading Activities

- (a) trades in securities of Royal Bank;

RBC GAM policy requires that an investment decision in respect of Related-Party Trading Activities (i) is made free from any influence of Royal Bank or its associates or affiliates and without taking into account any consideration relevant to Royal Bank or its affiliates or associates, (ii) represents the business judgment of the portfolio manager, uninfluenced by considerations other than the best interests of the Fund, (iii) is in compliance with RBC GAM policies and procedures, and (iv) achieves a fair and reasonable result for the Fund. RBC GAM policy requires that an investment decision in respect of Inter-Fund Trading is in the best interests of each Fund.

¹ The management expense ratio ("MER") is based on the direct expenses charged to the Fund and the Fund's proportionate share of the expenses of underlying funds, if any, for the stated period, excluding commissions and other portfolio transaction costs, and is expressed as an annualized percentage of the daily average net asset value during the period. RBC GAM may, at its discretion and without notice to unitholders, waive or absorb certain operating expenses. MER includes the waiver or absorption by RBC GAM of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by RBC GAM.

² The Fund's portfolio turnover rate gives an indication of the level of activity employed by the portfolio manager. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund.

³ The trading expense ratio represents total commissions and other portfolio transaction costs of the Fund and the Fund's proportionate share of such costs of underlying funds expressed as an annualized percentage of daily average net asset value during the period. The trading expense ratio is not applicable to fixed-income transactions.

PAST PERFORMANCE

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional units of the Fund and would be lower if distributions were not reinvested. The performance information does not take into account sales, redemption, distribution, optional charges or income taxes payable that would have reduced returns or performance. Past performance does not necessarily indicate how the Fund may perform in the future. A fund with more than 10 years of performance history is only permitted to disclose the past 10 years.
