MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objective and Strategies

The Fund seeks to provide investors with long-term capital growth by investing primarily in common stocks of companies in the world's largest industrialized countries outside Canada, including the United States and countries in Europe, as well as Japan, Australia and the rest of the Far East. The portfolio manager invests primarily in companies that they believe have sound fundamentals, a strong market position, a history of profitability, a capable management team, and attractive valuations.

Results of Operations

The Fund's net asset value was \$398 million as of June 30, 2018.

Over the past six months, the Fund's Series O units gained 9.6%. The Fund's return is after the deduction of expenses. See the Financial Highlights section for the management expense ratios and the Past Performance section for the returns of any other series, which may vary because of differences in management fees and expenses.

Global equity markets were mixed during the first half of 2018. U.S. stocks gained during the period and markets in Europe and Japan declined in local-currency terms but rose slightly in Canadian-dollar terms. The period was also marked by the return of volatility in financial markets driven by an escalating trade dispute between the U.S. and China, concern about higher inflation and steps taken by central banks to tighten monetary policy.

The period was characterized by large differences in performance among industry sectors and regions. The Information Technology, Consumer Discretionary and Energy sectors were by far the best-performing sectors, while the Financials sector, especially in Europe, struggled in an uncertain political environment. The Consumer Staples and Utilities sectors, which offer high-dividend yields, underperformed against a competing backdrop of rising bond yields.

The Fund outperformed during the period as holdings in the Financials and Consumer Staples sectors overcame overall weakness in the sectors. Allocations to the Information Technology and Health Care sectors proved a small negative for relative returns.

TJX, the U.S. discount retailer, contributed the most to relative returns, followed by SVB Financial, a U.S. bank based in Silicon Valley. German shipper Deutsche Post DHL held back returns the most, and U.S. floorings manufacturer Mohawk Industries also had a significantly negative impact on performance.

Recent Developments

There are several questions dogging stock-market investors these days, among them whether companies are relying excessively on cheap funding to bolster returns. The sub-advisor, however, is more concerned about the potential impact of the tariff dispute between the U.S. and China. The unease caused by the conflict has led to increased equity-market volatility that can create investment opportunities for stock pickers. While the next 12 months may prove more volatile, the sub-advisor believes in its ability to find well-run companies that will provide attractive returns over the long term.

Related-Party Transactions

Manager and Portfolio Manager

RBC GAM is an indirect, wholly owned subsidiary of Royal Bank and is the manager and principal portfolio manager of the Fund. RBC GAM is responsible for the Fund's day-to-day operations, provides investment advice and portfolio management services to the Fund and appoints distributors for the Fund. RBC GAM is paid a management fee by the Fund as compensation for its services. The Fund pays a fixed administration fee to RBC GAM, which, in turn, pays certain operating expenses of the Fund. Both the management fee and fixed administration fee are calculated and accrued daily as a percentage of the net asset value of each series of units of the Fund.

RBC GAM or its affiliates may earn fees and spreads in connection with various services provided to, or transactions with, the Fund, such as banking, brokerage, securities lending, foreign exchange and derivatives transactions. RBC GAM or its affiliates may earn a foreign exchange spread when unitholders switch between series of funds denominated in different currencies. The Fund also maintains bank accounts and overdraft provisions with Royal Bank for which Royal Bank may earn a fee. Affiliates of RBC GAM that provide services to the Fund in the course of their normal businesses are discussed below.

Sub-Advisor

RBC Global Asset Management (UK) Limited is the sub-advisor and provides investment advice for the Fund. The sub-advisor earns a fee which is calculated and accrued daily as a percentage of the net asset value of each series of units of the Fund. The sub-advisor is paid by the manager from the management fee paid by the Fund.

Distributors

RBC GAM, Royal Mutual Funds Inc., RBC Direct Investing Inc., RBC Dominion Securities Inc. and Phillips, Hager & North Investment Funds Ltd. are principal distributors of, or may distribute certain series of units of, the Fund. Dealers may receive an ongoing commission based on the total value of their clients' investment in certain series of units of the Fund.

Registrars

RBC GAM, RBC IS or Royal Bank (or a combination thereof) are the registrars of the Fund and keep records of who owns units of the Fund. The registrars earn a fee, which is paid by the manager from the fixed administration fee paid by the Fund.

Trustee and Custodian

RBC Investor Services Trust ("RBC IS") is the trustee and holds title to the Fund's property on behalf of unitholders. RBC IS is the custodian of the Fund and holds the assets of the Fund.

RBC IS earns a fee as the trustee and custodian, which is paid by the manager from the fixed administration fee paid by the Fund.

Securities Lending Agent

To the extent the Fund may engage in securities lending transactions, RBC IS may act as the Fund's securities lending agent. Any revenue earned on such securities lending is split between the Fund and the securities lending agent.

Other Related-Party Transactions

Pursuant to applicable securities legislation, the Fund relied on the standing instructions from the Independent Review Committee with respect to one or more of the following transactions:

Related-Party Trading Activities

- (a) trades in securities of Royal Bank;
- (b) investments in the securities of issuers for which a related-party dealer acted as an underwriter during the distribution of such securities and the 60-day period following the conclusion of such distribution of the underwritten securities to the public;
- (c) purchases of equity and debt securities from or sales of equity or debt securities to a related-party dealer, where it acted as principal; and

Inter-Fund Trading

- (d) purchases or sales of securities of an issuer from or to another investment fund or managed account managed by RBC GAM.

The applicable standing instructions require that Related-Party Trading Activities and Inter-Fund Trading be conducted in accordance with RBC GAM policy and that RBC GAM advise the Independent Review Committee of a material breach of any standing instruction. RBC GAM policy requires that an investment decision in respect of Related-Party Trading Activities (i) is made free from any influence of Royal Bank or its associates or affiliates and without taking into account any consideration relevant to Royal Bank or its affiliates or associates, (ii) represents the business judgment of the portfolio manager, uninfluenced by considerations other than the best interests of the Fund, (iii) is in compliance with RBC GAM policies and procedures, and (iv) achieves a fair and reasonable result for the Fund. RBC GAM policy requires that an investment decision in respect of Inter-Fund Trading is in the best interests of each Fund.

¹ The management expense ratio ("MER") is based on expenses for the stated period, excluding commissions and other portfolio transaction costs, and is expressed as an annualized percentage of the daily average net asset value during the period. RBC GAM may, at its discretion and without notice to unitholders, waive or absorb certain operating expenses. MER includes the waiver or absorption by RBC GAM of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by RBC GAM.

² The Fund's portfolio turnover rate gives an indication of the level of activity employed by the portfolio manager. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between high turnover rate and the performance of the Fund. The portfolio turnover rate is not applicable to money market funds.

³ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period. The trading expense ratio is not applicable to fixed-income transactions.

⁴ Effective October 2, 2017, the administration fees were changed in respect of Series O units of the Fund. If the changes to the administration fees would have been in effect throughout 2017, the adjusted MER for each series of the Fund would be: Series O – 0.02%.

FINANCIAL HIGHLIGHTS (cont.)

Management Fees

RBC GAM is the manager and portfolio manager of the Fund. Management fees of each series of the Fund are calculated at the annual percentages, before GST/HST, of the daily net asset value of each series of the Fund. * Includes all costs related to management, investment advisory services, general administration and profit.

PAST PERFORMANCE

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional units of the Fund and would be lower if distributions were not reinvested. The performance information does not take into account sales, redemption, distribution, optional charges or income taxes payable that would have reduced returns or performance. Past performance does not necessarily indicate how the Fund may perform in the future. A fund with more than 10 years of performance history is only permitted to disclose the past 10 years.

Year-by-Year Returns (%)

The bar chart indicates the Fund's performance for each of the years shown, and illustrates how the Fund's performance has changed from year to year. The bar chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the end of the financial year or interim period.

Advisor Series units have been available for sale to unitholders since October 2010, and Series A units since November 2008.

Inception dates are not provided for series that have been in existence for more than 10 years.

All outstanding Series C units were renamed Series A units effective June 30, 2016. Series D was known as Series A prior to November 17, 2008.

For the 12-month periods ended December 31 and the six-month period ended June 30, 2018.
