## MANAGEMENT DISCUSSION OF FUND PERFORMANCE

### Investment Objective and Strategies

The Fund seeks to provide investors with long-term capital growth and income by investing primarily in a well-diversified portfolio of dividend income-producing U.S. securities that have a relatively high yield. To achieve the Fund's investment objective, the portfolio manager invests primarily in large-capitalization U.S. common shares that pay dividends or have prospects of paying or growing their dividends and, to a lesser extent, preferred shares and bonds.

### Results of Operations

The Fund's net asset value was \$297 million as of June 30, 2025.

Over the past six months, the Fund's Series F units lost 0.3%. The Fund's return is after the deduction of fees and expenses. See the Financial Highlights section for the management expense ratios and the Past Performance section for the returns of any other series, which may vary because of differences in management fees and expenses.

Trade negotiations dominated the direction of financial markets during the first six months of 2025. Early optimism that the Trump administration would focus on deregulating the economy gave way to concern that he would instead implement across-the-board tariffs on U.S. trade partners. U.S. stocks retreated from all-time highs established early in the year after Trump announced the tariffs. The outlook subsequently improved as the U.S. administration reached trade agreements that ensured a worst-case scenario would not unfold. As a result, U.S. stocks returned to new all-time highs. Geopolitical turmoil in the Middle East sent oil prices surging on fears of a wider conflict and instability in the region, but oil prices came back down after tensions eased.

The Information Technology sector supported U.S. equities, while the Consumer Discretionary sector lagged. The U.S. Federal Reserve left its benchmark interest rate unchanged in a range between 4.25% and 4.50% as concern that the tariff war would spark inflation outweighed worries that the economy was slowing.

The Fund's relative exposure to Tesla, Goldman Sachs and AT&T had the most positive impact on the Fund's returns, while exposure to Netflix, Bristol-Myers Squibb and Nvidia was negative for performance.

The sectors that had the most positive impact on the Fund's returns were Financials, Consumer Staples and Consumer Discretionary, while exposure to Industrials, Information Technology and Energy had a negative impact.

The Fund had overweight positions in Goldman Sachs, Morgan Stanley and SPDR S&P 500 ETF Trust and underweight positions in Berkshire Hathaway, Tesla and Amazon.com.

At the sector level, the Fund had overweight exposure to Health Care, Utilities and Energy and underweight exposure to Consumer Discretionary, Industrials and Information Technology.

### Recent Developments

The consensus 2025 forecast for S&P 500 Index earnings growth is roughly 8% but is more likely to be 4% if tariffs persist. Profit-growth estimates for 2026 exceed 10%, which also seems optimistic to the portfolio manager. The portfolio manager believes that continued stock gains will require a relatively benign resolution to the trade war and increased productivity stemming from the application of artificial intelligence.

### Related-Party Transactions

#### *Manager and Portfolio Manager*

RBC GAM is an indirect, wholly owned subsidiary of Royal Bank and is the manager and principal portfolio manager of the Fund. RBC GAM is responsible for the Fund's day-to-day operations, provides investment advice and portfolio management services to the Fund and appoints distributors for the Fund. RBC GAM is paid a management fee by the Fund as compensation for its services. The Fund pays a fixed administration fee to RBC GAM, which, in turn, pays certain operating expenses of the Fund. Both the management fee and fixed administration fee are calculated and accrued daily as a percentage of the net asset value of each series of units of the Fund.

RBC GAM or its affiliates may earn fees and spreads in connection with various services provided to, or transactions with, the Fund, such as banking, brokerage, securities lending, foreign exchange and derivatives transactions. RBC GAM or its affiliates may earn a foreign exchange spread when unitholders switch between series of funds denominated in different currencies. The Fund also maintains bank accounts and overdraft provisions with Royal Bank for which Royal Bank may earn a fee. Affiliates of RBC GAM that provide services to the Fund in the course of their normal businesses are discussed below.

#### *Distributors*

RBC GAM, Royal Mutual Funds Inc., RBC Direct Investing Inc., RBC Dominion Securities Inc. and Phillips, Hager & North Investment Funds Ltd. are principal distributors of, or may distribute certain series of units of, the Fund. Dealers may receive an ongoing commission based on the total value of their clients' investment in certain series of units of the Fund.

#### *Registrars*

RBC GAM, RBC Investor Services Trust ("RBC IS") or Royal Bank (or a combination thereof) are the registrars of the Fund and keep records of who owns units of the Fund. The registrars earn a fee, which is paid by the manager from the fixed administration fee paid by the Fund.

#### ***Trustee and Custodian***

RBC IS is the trustee and holds title to the Fund's property on behalf of unitholders. RBC IS is the custodian of the Fund and holds the assets of the Fund.

RBC IS earns a fee as the trustee and custodian, which is paid by the manager from the fixed administration fee paid by the Fund.

#### ***Securities Lending Agent***

To the extent the Fund may engage in securities lending transactions, RBC IS may act as the Fund's securities lending agent. Any revenue earned on such securities lending is split between the Fund and the securities lending agent.

#### ***Brokers and Dealers***

The Fund has established standard brokerage and dealing agreements at market rates with related parties. For the periods ended June 30, 2025 and 2024, the related-party commissions were \$13,000 (2024 – \$8,000) or 9% (2024 – 9%) of the total transaction costs paid for this Fund.

#### ***Other Related-Party Transactions***

Pursuant to applicable securities legislation, the Fund relied on the standing instructions from the Independent Review Committee with respect to one or more of the following transactions:

##### ***Related-Party Trading Activities***

- (a) trades in securities of Royal Bank;
- (b) investments in the securities of issuers for which a related-party dealer acted as an underwriter during the distribution of such securities and the 60-day period following the conclusion of such distribution of the underwritten securities to the public;
- (c) purchases of equity, debt securities or mortgages from or sales of equity, debt securities or mortgages to a related-party dealer, where it acted as principal; and

##### ***Inter-Fund Trading***

- (d) purchases or sales of securities of an issuer from or to another investment fund or managed account managed by RBC GAM.

The applicable standing instructions require that Related-Party Trading Activities and Inter-Fund Trading be conducted in accordance with RBC GAM policy and that RBC GAM advise the Independent Review Committee of a material breach of any standing instruction. RBC GAM policy requires that an investment decision in respect of Related-Party Trading Activities (i) is made free from any influence of Royal Bank or its associates or affiliates and without taking into account any consideration relevant to Royal Bank or its affiliates or associates, (ii) represents the business judgment of the portfolio manager, uninfluenced by considerations other than the best interests of the Fund, (iii) is in compliance with RBC GAM policies and procedures, and (iv) achieves a fair and reasonable result for the Fund. RBC GAM policy requires that an investment decision in respect of Inter-Fund Trading is in the best interests of each Fund.

<sup>1</sup> The management expense ratio ("MER") is based on the direct expenses charged to the Fund and the Fund's proportionate share of the expenses of underlying funds, if any, for the stated period, excluding commissions and other portfolio transaction costs, and is expressed as an annualized percentage of the daily average net asset value during the period. RBC GAM may, at its discretion and without notice to unitholders, waive or absorb certain operating expenses. MER includes the waiver or absorption by RBC GAM of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by RBC GAM.

<sup>2</sup> The Fund's portfolio turnover rate gives an indication of the level of activity employed by the portfolio manager. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund. The portfolio turnover rate is not applicable to money market funds.

<sup>3</sup> The trading expense ratio represents total commissions and other portfolio transaction costs of the Fund and the Fund's proportionate share of such costs of underlying funds expressed as an annualized percentage of daily average net asset value during the period. The trading expense ratio is not applicable to fixed-income transactions.
