MANAGEMENT DISCUSSION OF FUND PERFORMANCE (in USD)

Investment Objective and Strategies

The Fund seeks to provide investors with a steady level of current income while preserving capital by investing primarily in Canadian short-term debt instruments denominated in U.S. dollars. To achieve the Fund's investment objective, the portfolio manager invests in government or government-guaranteed treasury bills, asset-backed commercial paper and high-grade corporate notes. At the time of purchase, the portfolio's term to maturity will typically average 30 days. The Fund is managed within a conservative framework.

Results of Operations

The Fund's net asset value was \$61 million as of June 30, 2022.

As of June 30, 2022, the current yields were 0.94% for Series A units, 0.93% for Series D units, 1.04% for Series F units and 1.25% for Series O units.

Over the past six months, the Fund's Series O units returned 0.22%. The Fund's return is after the deduction of expenses. See the Financial Highlights section for the management expense ratios and the Past Performance section for the returns of any other series, which may vary because of differences in management fees and expenses.

Over the first half of 2022, the U.S. Federal Reserve (the "Fed") increased its benchmark interest rate to a range of 1.50% to 1.75% from near zero to combat persistently elevated inflation. The Fund's approach continued to be defensive in order to preserve capital, favouring high-quality issuers with strong credit ratings and offering liquidity. This strategy contributed positively to the Fund's performance during the period.

The portfolio manager allocated all of the Fund's assets to money-market instruments paying higher yields than U.S. Treasury bills, including U.S. dollar-denominated corporate notes, bank-sponsored asset-backed commercial paper, bankers' acceptances and provincial treasury bills.

Recent Developments

The portfolio manager sees attractive investment opportunities in the U.S. money market as yields have increased significantly, and believes that the Fund is positioned with sufficient flexibility to perform well in multiple inflation and interest-rate scenarios.

Investors expect U.S. short-term benchmark interest rates to continue rising over the second half of 2022, consistent with the Fed's commitment to bringing inflation down to its 2% target. Short-term interest rates should continue to rise over the balance of 2022,

albeit at a slower pace than they did in the first half of the year. In the view of the portfolio manager, corporate securities continue to provide the potential for attractive returns relative to lower-yielding government securities.

Effective June 27, 2022, management fees were reduced as follows: from 0.75% to 0.30% for Series A units; from 0.50% to 0.30% for Series D units; from 0.50% to 0.20% for Series F units; and administration fees were reduced as follows: from 0.05% to 0.02% for Series A, Series D, Series F and Series O units.

Related-Party Transactions

Manager and Portfolio Manager

RBC GAM is an indirect, wholly owned subsidiary of Royal Bank and is the manager and principal portfolio manager of the Fund. RBC GAM is responsible for the Fund's day-to-day operations, provides investment advice and portfolio management services to the Fund and appoints distributors for the Fund. RBC GAM is paid a management fee by the Fund as compensation for its services. The Fund pays a fixed administration fee to RBC GAM, which, in turn, pays certain operating expenses of the Fund. Both the management fee and fixed administration fee are calculated and accrued daily as a percentage of the net asset value of each series of units of the Fund.

RBC GAM or its affiliates may earn fees and spreads in connection with various services provided to, or transactions with, the Fund, such as banking, brokerage, securities lending, foreign exchange and derivatives transactions. RBC GAM or its affiliates may earn a foreign exchange spread when unitholders switch between series of funds denominated in different currencies. The Fund also maintains bank accounts and overdraft provisions with Royal Bank for which Royal Bank may earn a fee. Affiliates of RBC GAM that provide services to the Fund in the course of their normal businesses are discussed below.

Distributors

RBC GAM, Royal Mutual Funds Inc., RBC Direct Investing Inc., RBC Dominion Securities Inc. and Phillips, Hager & North Investment Funds Ltd. are principal distributors of, or may distribute certain series of units of, the Fund. Dealers may receive an ongoing commission based on the total value of their clients' investment in certain series of units of the Fund.

Registrars

RBC GAM, RBC Investor Services Trust ("RBC IS") or Royal Bank (or a combination thereof) are the registrars of the Fund and keep records of who owns units of the Fund. The registrars earn a fee, which is paid by the manager from the fixed administration fee paid by the Fund.

Trustee and Custodian

RBC IS is the trustee and holds title to the Fund's property on behalf of unitholders. RBC IS is the custodian of the Fund and holds the assets of the Fund.

RBC IS earns a fee as the trustee and custodian, which is paid by the manager from the fixed administration fee paid by the Fund.

Securities Lending Agent

To the extent the Fund may engage in securities lending transactions, RBC IS may act as the Fund's securities lending agent. Any revenue earned on such securities lending is split between the Fund and the securities lending agent.

Other Related-Party Transactions

Pursuant to applicable securities legislation, the Fund relied on the standing instructions from the Independent Review Committee with respect to one or more of the following transactions:

Related-Party Trading Activities

- (a) trades in securities of Royal Bank;
- (b) investments in the securities of issuers for which a related-party dealer acted as an underwriter during the distribution of such securities and the 60-day period following the conclusion of such distribution of the underwritten securities to the public;
- (c) purchases of equity and debt securities from or sales of equity or debt securities to a related-party dealer, where it acted as principal; and

Inter-Fund Trading

- (d) purchases or sales of securities of an issuer from or to another investment fund or managed account managed by RBC GAM.

The applicable standing instructions require that Related-Party Trading Activities and Inter-Fund Trading be conducted in accordance with RBC GAM policy and that RBC GAM advise the Independent Review Committee of a material breach of any standing instruction. RBC GAM policy requires that an investment decision in respect of Related-Party Trading Activities (i) is made free from any influence of Royal Bank or its associates or affiliates and without taking into account any consideration relevant to Royal Bank or its affiliates or associates, (ii) represents the business judgment of the portfolio manager, uninfluenced by considerations other than the best interests of the Fund, (iii) is in compliance with RBC GAM policies and procedures, and (iv) achieves a fair and reasonable result for the Fund. RBC GAM policy requires that an investment decision in respect of Inter-Fund Trading is in the best interests of each Fund.

¹ The management expense ratio ("MER") is based on the direct expenses charged to the Fund and the Fund's proportionate share of the expenses of underlying funds, if any, for the stated period, excluding commissions and other portfolio transaction costs, and is expressed as an annualized percentage of the daily average net asset value during the period. RBC GAM may, at its discretion and without notice to unitholders, waive or absorb certain operating expenses. MER includes the waiver or absorption by RBC GAM of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by RBC GAM.

² The Fund's portfolio turnover rate gives an indication of the level of activity employed by the portfolio manager. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between high turnover rate and the performance of the Fund. The portfolio turnover rate is not applicable to money market funds.

³ The trading expense ratio represents total commissions and other portfolio transaction costs of the Fund and the Fund's proportionate share of such costs of underlying funds expressed as an annualized percentage of daily average net asset value during the period. The trading expense ratio is not applicable to fixed-income transactions.

Effective June 27, 2022, the management fees for Series A units were reduced to 0.30% from 0.75%; for Series D units were reduced to 0.30% from 0.50%; for Series F units were reduced to 0.20% from 0.50%; and the administration fees for Series A, Series D, Series F and Series O units were reduced to 0.02% from 0.05%. If the changes to the management fees and the administration fees would have been in effect throughout the financial period ended June 30, 2022, the adjusted MER and adjusted MER before absorption for each series of the Fund would be: Series A – 0.11% and 0.34%, Series D – 0.10% and 0.35%, and Series F – 0.08% and 0.23%, respectively.

PAST PERFORMANCE (in USD)

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional units of the Fund and would be lower if distributions were not reinvested. The performance information does not take into account sales, redemption, distribution, optional charges or income taxes payable that would have reduced returns or performance. Past performance does not necessarily indicate how the Fund may perform in the future. A fund with more than 10 years of performance history is only permitted to disclose the past 10 years.

Year-by-Year Returns (%)

The bar chart indicates the Fund's performance for each of the years shown, and illustrates how the Fund's performance has changed from year to year. The bar chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the end of the financial year or interim period.

Inception dates are not provided for series that have been in existence for more than 10 years.

Advisor Series units were re-designated as Series A units effective August 4, 2020.

For the 12-month periods ended December 31 and the six-month period ended June 30, 2022.
