

## **NOTICE TO UNITHOLDERS OF RBC TARGET 2020 CORPORATE BOND INDEX ETF (TSX: RQH)**

You are receiving this notice because you hold units of the RBC Target 2020 Corporate Bond Index ETF. **On November 13, 2020 ("maturity date"), the RBC Target 2020 Corporate Bond Index ETF will terminate.**

Upon termination, unitholders will receive a maturity distribution in the amount of the net asset value of the RBC Target 2020 Corporate Bond Index ETF units held in the account on the maturity date. Payment of the maturity distribution is expected to be deposited into unitholders' investment accounts on the maturity date.

### **Why is the RBC Target 2020 Corporate Bond Index ETF maturing?**

Unlike traditional ETFs, which do not have a fixed termination date, target maturity ETFs are specifically set up to mature on a specified termination date that is established when the ETF is launched. When the ETF reaches its maturity date, the ETF's net assets are returned to the unitholders.

### **When will the RBC Target 2020 Corporate Bond Index ETF cease trading?**

The last day of trading of RQH on the Toronto Stock Exchange is expected to be November 11, 2020 and unitholders at the end of this trading day will become unitholders of record for the purpose of receiving the maturity distribution.

### **What are the tax implications?**

There are no tax implications relating to the termination of the RBC Target 2020 Corporate Bond Index ETF if you are holding units in a registered account.

Termination of the RBC Target 2020 Corporate Bond Index ETF may result in a taxable gain or loss, depending on your individual situation, for units held in a non-registered account on the maturity date. Please read the prospectus of the RBC Target 2020 Corporate Bond Index ETF for additional information on the taxation of unitholders.

### **What actions do you need to take now?**

No action needs to be taken by investors.

### **For more information**

## RBC TARGET 2020 CORPORATE BOND INDEX ETF

---

June 30, 2020

**Portfolio Manager** *RBC Global Asset Management Inc. ("RBC GAM")*

**Notice to Unitholders:**

*RBC Target 2020 Corporate Bond Index ETF is maturing in November 2020. Important details enclosed.*

The Board of Directors of RBC Global Asset Management Inc. approved this interim management report of fund performance on August 11, 2020.

**A Note on Forward-looking Statements**

This report may contain forward-looking statements about the ETF, its future performance, strategies or prospects, and possible future ETF action. The words "may," "could," "should," "would," "suspect," "outlook," "believe," "plan," "anticipate," "estimate," "expect," "intend," "forecast," "objective" and similar expressions are intended to identify forward-looking statements.

Forward-looking statements are not guarantees of future performance. Forward-looking statements involve inherent risks and uncertainties, both about the ETF and general economic factors, so it is possible that predictions, forecasts, projections and other forward-looking statements will not be achieved. We caution you not to place undue reliance on these statements as a number of important factors could cause actual events or results to differ materially from those expressed or implied in any forward-looking statement made in relation to the ETF. These factors include, but are not limited to, general economic, political and market factors in Canada, the United States and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological changes, changes in laws and regulations, judicial or regulatory judgments, legal proceedings and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. All opinions contained in forward-looking statements are subject to change without notice and are provided in good faith but without legal responsibility.

## MANAGEMENT DISCUSSION OF FUND PERFORMANCE

### Investment Objective and Strategies

The ETF seeks to provide income for a limited period of time ending on its termination date by replicating, to the extent possible, the investment results that correspond generally to the performance, before fees and expenses, of the FTSE Canada 2020 Maturity Corporate Bond Index\*. The FTSE Canada 2020 Maturity Corporate Bond Index is designed to represent the performance of a held-to-maturity portfolio consisting of, primarily, Canadian dollar-denominated investment grade corporate bonds with effective maturities in 2020.

The ETF intends to invest at least 90% of its assets in and hold the securities that comprise the FTSE Canada 2020 Maturity Corporate Bond Index and/or securities that have economic characteristics that are substantially similar to those that comprise the index.

### Results of Operations

The ETF's net asset value was \$19 million as of June 30, 2020.

Over the past six months, the ETF's units gained 1.0%. The ETF's return is after the deduction of fees and expenses. See the Financial Highlights section for the management expense ratios and the Past Performance section for the returns of the ETF.

The ETF is in its maturity year, with all proceeds from maturing bonds rolling into T-bills. The Bank of Canada (the "BOC") and other global central banks materially cut interest rates in a bid to stabilize the financial system and shield the economy from the effects of the COVID-19 pandemic. As a result, the ETF's yield has fallen to less than 0.50%.

### Recent Developments

The portfolio manager expects all major central banks to keep benchmark interest rates unchanged for at least the next 12 months unless the economic recovery proceeds at a much faster pace than the portfolio manager expects. As the pandemic subsides longer term, it would be reasonable to expect yields to rise from current levels, in the view of the portfolio manager.

Valuations of non-government bonds are more attractive than at the end of 2019, and there is room for the gap between yields on government bonds and non-government bonds to narrow in what would be an optimistic sign for the economic outlook. A reduced supply of new bonds and investors' search for higher yields will also support the corporate-bond market, in the view of the portfolio manager. The BOC has said it would consider pushing interest rates below zero if the economic backdrop worsens significantly.

The financial year-end of the ETFs managed by RBC GAM (the "RBC ETFs") has been changed from December 31 to September 30. As a result, the 2020 financial year for the RBC ETFs will be for the period from January 1, 2020 to September 30, 2020 as they transition to the new year-end. The change in financial year does not change the RBC ETFs' tax year-end, which remains December 15 or December 31, as applicable.

Effective on or about November 30, 2020, the ETF will reach its maturity date as per the prospectus and investment mandate.

Effective January 1, 2020, the management fees were reduced from 0.25% to 0.20%.

Effective January 1, 2020, Ms. Ruth Corbin was appointed as a member of the Independent Review Committee.

### **Strategic Alliance with BlackRock Canada**

RBC GAM and BlackRock Asset Management Canada Limited ("BlackRock Canada") have entered into a strategic alliance with regard to their ETF businesses in Canada whereby the ETF families offered by RBC GAM and BlackRock Canada are brought together under one brand – RBC iShares (the "Strategic Alliance"). The Strategic Alliance is a long-term contractual strategic alliance without the establishment of a joint venture entity. Under the Strategic Alliance, each of RBC GAM and BlackRock Canada provides the other party with support and certain services in relation to administration, distribution support, marketing and management of the ETFs managed by each of RBC GAM and BlackRock Canada (collectively, the "Strategic Alliance ETFs"). In connection with the provision of these mutual services, each of RBC GAM and BlackRock Canada provides the other with certain limited information, review and consent rights in relation to the Strategic Alliance ETFs. In addition, as consideration for these mutual services provided as part of the Strategic Alliance, RBC GAM and BlackRock Canada agree to share management fee revenue earned from the Strategic Alliance ETFs. Although RBC GAM and BlackRock Canada provide services to each other, the two firms continue to maintain separate fund management and portfolio advisory responsibilities for the Strategic Alliance ETFs for which they serve as investment fund manager or portfolio advisor. The Strategic Alliance Agreement contemplates that RBC GAM and BlackRock Canada will work together on new product development and ongoing review and rationalization of the product lineup.

## **Related-Party Transactions**

### ***Manager, Trustee and Portfolio Manager***

RBC GAM is an indirect, wholly owned subsidiary of Royal Bank of Canada ("Royal Bank") and is the manager, trustee and portfolio manager of the ETF. RBC GAM is responsible for the ETF's day-to-day operations, holds title to the ETF's property on behalf of its unitholders, and provides investment advice and portfolio management services to the ETF. RBC GAM is paid a management fee by the ETF as compensation for its services. The management fee is calculated and accrued on a daily basis and is based on a percentage of the net asset value of the ETF.

RBC GAM or its affiliates may earn fees and spreads in connection with various services provided to, or transactions with, the ETF, such as banking, brokerage, securities lending, foreign exchange and derivatives transactions. RBC GAM or its affiliates may earn a foreign exchange spread when unitholders buy and sell ETF units denominated in different currencies. The ETF may also maintain bank accounts and overdraft provisions with Royal Bank for which Royal Bank may earn a fee. Affiliates of RBC GAM that provide services to the ETF in the course of their normal businesses are discussed below.

### ***Custodian and Valuation Agent***

RBC Investor Services Trust ("RBC IS") is the custodian and valuation agent and holds the assets of the ETF and provides administrative services to the ETF. RBC IS earns a variable fee based on the value of assets under custody and a fixed fee for other valuation and administrative services.

### ***Designated Broker***

RBC GAM has entered into an agreement with RBC Dominion Securities Inc., an affiliate of RBC GAM, to act as designated broker and/or authorized dealer for the distribution of units of the ETF, on terms and conditions that are comparable to arm's length agreements in the ETF industry. The material terms and conditions of the agreement have been disclosed in the ETF's Prospectus.

### ***Securities Lending Agent***

To the extent the ETF may engage in securities lending transactions, RBC IS may act as the ETF's securities lending agent. Any revenue earned on such securities lending is split between the ETF and the securities lending agent.

### ***Other Related-Party Transactions***

Pursuant to applicable securities legislation, the ETF relied on the standing instructions from the Independent Review Committee with respect to one or more of the following transactions:

### ***Related-Party Trading Activities***

- (a) trades in securities of Royal Bank;
- (b) investments in the securities of issuers for which a related-party dealer acted as an underwriter during the distribution of such securities and the 60-day period following the conclusion of such distribution of the underwritten securities to the public;
- (c) purchases of debt securities from or sales of debt securities to a related-party dealer, where it acted as principal.

The applicable standing instructions require that Related-Party Trading Activities be conducted in accordance with RBC GAM policy and that RBC GAM advise the Independent Review Committee of a material breach of any standing instruction. RBC GAM policy requires that an investment decision in respect of Related-Party Trading Activities (i) is made free from any influence of Royal Bank or its associates or affiliates and without taking into account any consideration relevant to Royal Bank or its affiliates or associates, (ii) represents the business judgment of the portfolio manager, uninfluenced by considerations other than the best interests of the ETF, (iii) is in compliance with RBC GAM policies and procedures, and (iv) achieves a fair and reasonable result for the ETF.

## FINANCIAL HIGHLIGHTS

The following tables show selected key financial information about the ETF and are intended to help you understand the ETF's financial performance for the past six months (noted by June 30, 2020), and for the past five years or for the periods since inception. This information is derived from the ETF's unaudited interim financial statements and audited annual financial statements.

<sup>1</sup> Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

<sup>2</sup> Distributions are either paid in cash, reinvested in additional units of the ETF, or both.

<sup>1</sup> The management expense ratio ("MER") is based on the direct expenses charged to the ETF and the ETF's proportionate share of the expenses of underlying funds, if any, for the stated period, excluding commissions and other portfolio transaction costs, and is expressed as an annualized percentage of the daily average net asset value during the period. RBC GAM may, at its discretion and without notice to unitholders, waive or absorb certain operating expenses. MER includes the waiver or absorption by RBC GAM of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by RBC GAM.

<sup>2</sup> The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period. The trading expense ratio is not applicable to fixed-income transactions.

<sup>3</sup> The ETF's portfolio turnover rate gives an indication of the level of activity employed by the portfolio manager. A portfolio turnover rate of 100% is equivalent to the ETF buying and selling all of the securities in its portfolio once in the course of the year. The higher the ETF's portfolio turnover rate in a year, the greater the trading costs payable by the ETF in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the ETF.

Effective January 1, 2020, the management fees were reduced to 0.20% from 0.25%.

### Management Fees

RBC GAM is the manager, trustee and portfolio manager of the ETF.

The management fee of the ETF is calculated at the annual percentage, before GST/HST, of the daily net asset value of the ETF.

Management Fees	
Until December 31, 2019	0.25%
Effective January 1, 2020	0.20%

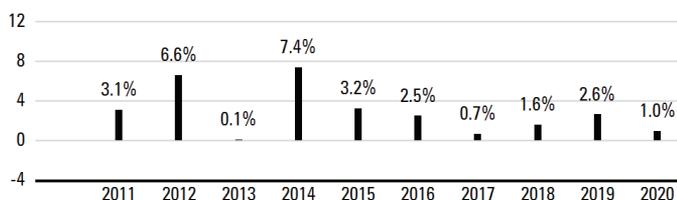

## PAST PERFORMANCE

The performance information shown assumes that all distributions made by the ETF in the periods shown were reinvested in additional units of the ETF and would be lower if distributions were not reinvested. The performance information does not take into account sales, redemption, distribution, optional charges or income taxes payable that would have reduced returns or performance. Past performance does not necessarily indicate how the ETF may perform in the future. A fund with more than 10 years of performance history is only permitted to disclose the past 10 years.

### Year-by-Year Returns (%)

The bar chart indicates the ETF's performance for each of the years shown, and illustrates how the ETF's performance has changed from year to year. The bar chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the end of the financial year or interim period.

The ETF's units have been available for sale to unitholders since September 15, 2011.

Inception dates are not provided for Funds that have been in existence for more than 10 years.

For the 12-month periods ended December 31 and the six-month period ended June 30, 2020.
