## **NOTICE TO UNITHOLDERS OF RBC TARGET 2021 CORPORATE BOND INDEX ETF (TSX: RQI)**

You are receiving this notice because you hold units of the RBC Target 2021 Corporate Bond Index ETF. **Effective on or about November 12, 2021 (“maturity date”), the RBC Target 2021 Corporate Bond Index ETF will terminate.**

Upon termination, unitholders will receive a maturity distribution in the amount of the net asset value of the RBC Target 2021 Corporate Bond Index ETF units held in the account on the maturity date. Payment of the maturity distribution is expected to be deposited into unitholders’ investment accounts on the maturity date.

### **Why is the RBC Target 2021 Corporate Bond Index ETF maturing?**

Unlike traditional ETFs, which do not have a fixed termination date, target maturity ETFs are specifically set up to mature on a specified termination date that is established when the ETF is launched. When the ETF reaches its maturity date, the ETF’s net assets are returned to the unitholders.

### **When will the RBC Target 2021 Corporate Bond Index ETF cease trading?**

The last day of trading of RQI on the Toronto Stock Exchange is expected to be on or about November 8, 2021 and unitholders at the end of this trading day will become unitholders of record for the purpose of receiving the maturity distribution.

### **What are the tax implications?**

There are no tax implications relating to the termination of the RBC Target 2021 Corporate Bond Index ETF if you are holding units in a registered account.

Termination of the RBC Target 2021 Corporate Bond Index ETF may result in a taxable gain or loss, depending on your individual situation, for units held in a non-registered account on the maturity date. Please read the prospectus of the RBC Target 2021 Corporate Bond Index ETF for additional information on the taxation of unitholders.

### **What actions do you need to take now?**

No action needs to be taken by investors.

### **For more information**

Thank you for choosing RBC ETFs to help you meet your investment goals. If you have further questions, please contact your financial advisor, or call us at 1-855-RBC-ETFS (722-3837).

The Board of Directors of RBC Global Asset Management Inc. approved this interim management report of fund performance on May 10, 2021.

**A Note on Forward-looking Statements**

This report may contain forward-looking statements about the ETF, its future performance, strategies or prospects, and possible future ETF action. The words "may," "could," "should," "would," "suspect," "outlook," "believe," "plan," "anticipate," "estimate," "expect," "intend," "forecast," "objective" and similar expressions are intended to identify forward-looking statements.

Forward-looking statements are not guarantees of future performance. Forward-looking statements involve inherent risks and uncertainties, both about the ETF and general economic factors, so it is possible that predictions, forecasts, projections and other forward-looking statements will not be achieved. We caution you not to place undue reliance on these statements as a number of important factors could cause actual events or results to differ materially from those expressed or implied in any forward-looking statement made in relation to the ETF. These factors include, but are not limited to, general economic, political and market factors in Canada, the United States and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological changes, changes in laws and regulations, judicial or regulatory judgments, legal proceedings and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. All opinions contained in forward-looking statements are subject to change without notice and are provided in good faith but without legal responsibility.

## MANAGEMENT DISCUSSION OF FUND PERFORMANCE

### Investment Objective and Strategies

The ETF seeks to provide income for a limited period of time ending on its termination date by replicating, to the extent possible, the investment results that correspond generally to the performance, before fees and expenses, of the FTSE Canada 2021 Maturity Corporate Bond Index\*. The FTSE Canada 2021 Maturity Corporate Bond Index is designed to represent the performance of a held-to-maturity portfolio consisting of, primarily, Canadian dollar-denominated investment grade corporate bonds with effective maturities in 2021.

The ETF intends to invest at least 90% of its assets in and hold the securities that comprise the FTSE Canada 2021 Maturity Corporate Bond Index and/or securities that have economic characteristics that are substantially similar to those that comprise the index.

### Results of Operations

The ETF's net asset value was \$25 million as of March 31, 2021.

Over the past six months, the ETF's units gained 0.2%. The ETF's return is after the deduction of fees and expenses. See the Financial Highlights section for the management expense ratios and the Past Performance section for the returns of the ETF.

The ETF is in its maturity year, with all proceeds from maturing bonds rolling into T-bills. Returns were essentially flat for the ETF, as the Bank of Canada (the "BOC") and the U.S. Federal Reserve (the "Fed") kept very short end rates as low as possible to facilitate a stable financial system and economic growth. This dynamic is expected to continue for the foreseeable future.

### Recent Developments

The portfolio manager believes that interest rates will likely head higher due to concerns about inflation resulting from large U.S. economic stimulus, the willingness of the Fed to respond somewhat slowly to the threat of inflation and global inventory bottlenecks. Moreover, government treasuries will likely continue to issue sovereign debt to finance spending.

Valuations of non-government bonds are somewhat rich in many sectors. There is a possibility of further fixed-income declines due to tax-loss selling and the termination of BOC purchases of fixed-income securities. While an improving economy is a positive for earnings, rising interest rates would hamper returns, especially for longer-dated bonds.

Effective January 1, 2021, the management fees were reduced from 0.25% to 0.20%.

Effective February 28, 2021, Ms. Catherine J. Kloefer resigned as Vice Chair of the Independent Review Committee (the "IRC"). Effective March 22, 2021, Mr. Paul K. Bates was appointed as Vice Chair of the IRC. Effective April 1, 2021, Ms. Brenda Eaton was appointed as a member of the IRC.

Effective on or about November 12, 2021, the ETF will reach its maturity date as per the prospectus and investment mandate.

### Related-Party Transactions

#### *Manager, Trustee and Portfolio Manager*

RBC GAM is an indirect, wholly owned subsidiary of Royal Bank of Canada ("Royal Bank") and is the manager, trustee and portfolio manager of the ETF. RBC GAM is responsible for the ETF's day-to-day operations, holds title to the ETF's property on behalf of its unitholders, and provides investment advice and portfolio management services to the ETF. RBC GAM is paid a management fee by the ETF as compensation for its services. The management fee is calculated and accrued on a daily basis and is based on a percentage of the net asset value of the ETF.

RBC GAM or its affiliates may earn fees and spreads in connection with various services provided to, or transactions with, the ETF, such as banking, brokerage, securities lending, foreign exchange and derivatives transactions. RBC GAM or its affiliates may earn a foreign exchange spread when unitholders buy and sell ETF units denominated in different currencies. The ETF may also maintain bank accounts and overdraft provisions with Royal Bank for which Royal Bank may earn a fee. Affiliates of RBC GAM that provide services to the ETF in the course of their normal businesses are discussed below.

#### *Custodian and Valuation Agent*

RBC Investor Services Trust ("RBC IS") is the custodian and valuation agent and holds the assets of the ETF and provides administrative services to the ETF. RBC IS earns a variable fee based on the value of assets under custody and a fixed fee for other valuation and administrative services.

***Designated Broker***

RBC GAM has entered into an agreement with RBC Dominion Securities Inc., an affiliate of RBC GAM, to act as designated broker and/or authorized dealer for the distribution of units of the ETF, on terms and conditions that are comparable to arm's length agreements in the ETF industry. The material terms and conditions of the agreement have been disclosed in the ETF's Prospectus.

***Securities Lending Agent***

To the extent the ETF may engage in securities lending transactions, RBC IS may act as the ETF's securities lending agent. Any revenue earned on such securities lending is split between the ETF and the securities lending agent.

***Other Related-Party Transactions***

Pursuant to applicable securities legislation, the ETF relied on the standing instructions from the Independent Review Committee with respect to one or more of the following transactions:

***Related-Party Trading Activities***

- (a) trades in securities of Royal Bank;
- (b) investments in the securities of issuers for which a related-party dealer acted as an underwriter during the distribution of such securities and the 60-day period following the conclusion of such distribution of the underwritten securities to the public;
- (c) purchases of debt securities from or sales of debt securities to a related-party dealer, where it acted as principal.

The applicable standing instructions require that Related-Party Trading Activities be conducted in accordance with RBC GAM policy and that RBC GAM advise the Independent Review Committee of a material breach of any standing instruction. RBC GAM policy requires that an investment decision in respect of Related-Party Trading Activities (i) is made free from any influence of Royal Bank or its associates or affiliates and without taking into account any consideration relevant to Royal Bank or its affiliates or associates, (ii) represents the business judgment of the portfolio manager, uninfluenced by considerations other than the best interests of the ETF, (iii) is in compliance with RBC GAM policies and procedures, and (iv) achieves a fair and reasonable result for the ETF.

<sup>1</sup> Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

<sup>2</sup> Distributions are either paid in cash, reinvested in additional units of the ETF, or both.

<sup>3</sup> The financial year-end of the ETF was changed from December 31 to September 30 in 2020 and therefore the information disclosed is for the nine-month period ended September 30, 2020.

Dec. 31, 2016	90 047	4 450	0.28	0.28	—	58.14	20.24	20.15

<sup>1</sup> The management expense ratio ("MER") is based on the direct expenses charged to the ETF and the ETF's proportionate share of the expenses of underlying funds, if any, for the stated period, excluding commissions and other portfolio transaction costs, and is expressed as an annualized percentage of the daily average net asset value during the period. RBC GAM may, at its discretion and without notice to unitholders, waive or absorb certain operating expenses. MER includes the waiver or absorption by RBC GAM of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by RBC GAM.

<sup>2</sup> The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period. The trading expense ratio is not applicable to fixed-income transactions.

<sup>3</sup> The ETF's portfolio turnover rate gives an indication of the level of activity employed by the portfolio manager. A portfolio turnover rate of 100% is equivalent to the ETF buying and selling all of the securities in its portfolio once in the course of the year. The higher the ETF's portfolio turnover rate in a year, the greater the trading costs payable by the ETF in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the ETF.

<sup>4</sup> The financial year-end of the ETF was changed from December 31 to September 30 in 2020 and therefore the information disclosed is for the nine-month period ended September 30, 2020.

Effective January 1, 2021, the management fees were reduced to 0.20% from 0.25%. If the changes to the management fees would have been in effect throughout the financial period ended March 31, 2021, the adjusted MER for the ETF would be: 0.22%.

### Management Fees

RBC GAM is the manager, trustee and portfolio manager of the ETF.

The management fee of the ETF is calculated at the annual percentage, before GST/HST, of the daily net asset value of the ETF.

Management Fees	
Until December 31, 2020	0.25%
Effective January 1, 2021	0.20%

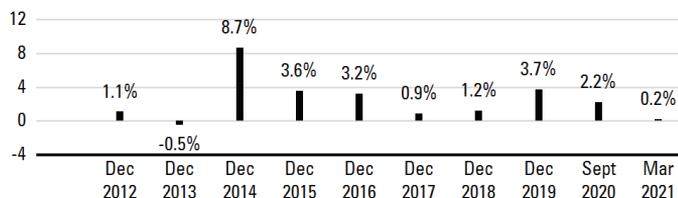

March 31, 2021

## PAST PERFORMANCE

The performance information shown assumes that all distributions made by the ETF in the periods shown were reinvested in additional units of the ETF and would be lower if distributions were not reinvested. The performance information does not take into account sales, redemption, distribution, optional charges or income taxes payable that would have reduced returns or performance. Past performance does not necessarily indicate how the ETF may perform in the future. A fund with more than 10 years of performance history is only permitted to disclose the past 10 years.

### Year-by-Year Returns (%)

The bar chart indicates the ETF's performance for each of the years shown, and illustrates how the ETF's performance has changed from year to year. The bar chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the end of the financial year or interim period.

The ETF's units have been available for sale to unitholders since October 10, 2012.

Inception dates are not provided for Funds that have been in existence for more than 10 years.

For the 12-month periods ended December 31, the nine-month period ended September 30, 2020 and the six-month period ended March 31, 2021.
