## MANAGEMENT DISCUSSION OF FUND PERFORMANCE

### Investment Objective and Strategies

The ETF seeks to provide unitholders with exposure to the performance of a diversified portfolio of high-quality U.S. equity securities that are expected to provide regular income from dividends and that have the potential for long-term capital growth.

Portfolio securities for the RBC Quant U.S. Dividend Leaders ETF will be selected using a rules-based, multifactor investment approach that considers a company's balance sheet strength, the stability and sustainability of its dividend payout and/or its ability to pay or grow dividends in the future. The portfolio manager considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings will be reconstituted and rebalanced initially on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

### Results of Operations

The ETF's net asset value was \$397 million as of June 30, 2020.

Over the past six months, the ETF's CAD units lost 0.5%. The ETF's return is after the deduction of fees and expenses. See the Financial Highlights section for the management expense ratios and the Past Performance section for the returns of the USD units.

The ETF's relative exposure to Qantas, Sydney Airport and Evraz had the most positive impact on the ETF's returns, while relative exposure to Simon Property Group, Microsoft and Ameriprise Financial was negative for performance.

The ETF had significant overweight positions in Intuit, Apple and Home Depot and significant underweight positions in Microsoft, Visa and Intel.

At the sector level, the ETF had overweight exposure to Consumer Staples, Information Technology and Consumer Discretionary and underweight exposure to Industrials, Communication Services and Health Care.

### Recent Developments

The financial year-end of the ETFs managed by RBC GAM (the "RBC ETFs") has been changed from December 31 to September 30. As a result, the 2020 financial year for the RBC ETFs will be for the period from January 1, 2020 to September 30, 2020 as they transition to the new year-end. The change in financial year does not change the RBC ETFs' tax year-end, which remains December 15 or December 31, as applicable.

Effective January 1, 2020, Ms. Ruth Corbin was appointed as a member of the Independent Review Committee.

### *Strategic Alliance with BlackRock Canada*

RBC GAM and BlackRock Asset Management Canada Limited ("BlackRock Canada") have entered into a strategic alliance with regard to their ETF businesses in Canada whereby the ETF families offered by RBC GAM and BlackRock Canada are brought together under one brand – RBC iShares (the "Strategic Alliance"). The Strategic Alliance is a long-term contractual strategic alliance without the establishment of a joint venture entity. Under the Strategic Alliance, each of RBC GAM and BlackRock Canada provides the other party with support and certain services in relation to administration, distribution support, marketing and management of the ETFs managed by each of RBC GAM and BlackRock Canada (collectively, the "Strategic Alliance ETFs"). In connection with the provision of these mutual services, each of RBC GAM and BlackRock Canada provides the other with certain limited information, review and consent rights in relation to the Strategic Alliance ETFs. In addition, as consideration for these mutual services provided as part of the Strategic Alliance, RBC GAM and BlackRock Canada agree to share management fee revenue earned from the Strategic Alliance ETFs. Although RBC GAM and BlackRock Canada provide services to each other, the two firms continue to maintain separate fund management and portfolio advisory responsibilities for the Strategic Alliance ETFs for which they serve as investment fund manager or portfolio advisor. The Strategic Alliance Agreement contemplates that RBC GAM and BlackRock Canada will work together on new product development and ongoing review and rationalization of the product lineup.

### Related-Party Transactions

#### *Manager, Trustee and Portfolio Manager*

RBC GAM is an indirect, wholly owned subsidiary of Royal Bank of Canada ("Royal Bank") and is the manager, trustee and portfolio manager of the ETF. RBC GAM is responsible for the ETF's day-to-day operations, holds title to the ETF's property on behalf of its unitholders, and provides investment advice and portfolio management services to the ETF. RBC GAM is paid a management fee by the ETF as compensation for its services. The management fee is calculated and accrued on a daily basis and is based on a percentage of the net asset value of the ETF.

RBC GAM or its affiliates may earn fees and spreads in connection with various services provided to, or transactions with, the ETF, such as banking, brokerage, securities lending, foreign exchange and derivatives transactions. RBC GAM or its affiliates may earn a foreign exchange spread when unitholders buy and sell ETF units denominated in different currencies. The ETF may also maintain bank accounts and overdraft provisions with Royal Bank for which

Royal Bank may earn a fee. Affiliates of RBC GAM that provide services to the ETF in the course of their normal businesses are discussed below.

***Custodian and Valuation Agent***

RBC Investor Services Trust ("RBC IS") is the custodian and valuation agent and holds the assets of the ETF and provides administrative services to the ETF. RBC IS earns a variable fee based on the value of assets under custody and a fixed fee for other valuation and administrative services.

***Designated Broker***

RBC GAM has entered into an agreement with RBC Dominion Securities Inc., an affiliate of RBC GAM, to act as designated broker and/or authorized dealer for the distribution of units of the ETF, on terms and conditions that are comparable to arm's length agreements in the ETF industry. The material terms and conditions of the agreement have been disclosed in the ETF's Prospectus.

***Securities Lending Agent***

To the extent the ETF may engage in securities lending transactions, RBC IS may act as the ETF's securities lending agent. Any revenue earned on such securities lending is split between the ETF and the securities lending agent.

***Other Related-Party Transactions***

Pursuant to applicable securities legislation, the ETF relied on the standing instructions from the Independent Review Committee with respect to one or more of the following transactions:

***Related-Party Trading Activities***

- (a) trades in securities of Royal Bank;
- (b) investments in the securities of issuers for which a related-party dealer acted as an underwriter during the distribution of such securities and the 60-day period following the conclusion of such distribution of the underwritten securities to the public;
- (c) purchases of debt securities from or sales of debt securities to a related-party dealer, where it acted as principal.

The applicable standing instructions require that Related-Party Trading Activities be conducted in accordance with RBC GAM policy and that RBC GAM advise the Independent Review Committee of a material breach of any standing instruction. RBC GAM policy requires that an investment decision in respect of Related-Party Trading Activities (i) is made free from any influence of Royal Bank or its associates or affiliates and without taking into account any consideration relevant to Royal Bank or its affiliates or associates, (ii) represents the business judgment of the portfolio manager, uninfluenced by considerations other than the best interests of the ETF, (iii) is in compliance with RBC GAM policies and procedures, and (iv) achieves a fair and reasonable result for the ETF.

<sup>1</sup> The management expense ratio ("MER") is based on the direct expenses charged to the ETF and the ETF's proportionate share of the expenses of underlying funds, if any, for the stated period, excluding commissions and other portfolio transaction costs, and is expressed as an annualized percentage of the daily average net asset value during the period. RBC GAM may, at its discretion and without notice to unitholders, waive or absorb certain operating expenses. MER includes the waiver or absorption by RBC GAM of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by RBC GAM.

<sup>2</sup> The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period. The trading expense ratio is not applicable to fixed-income transactions.

<sup>3</sup> The ETF's portfolio turnover rate gives an indication of the level of activity employed by the portfolio manager. A portfolio turnover rate of 100% is equivalent to the ETF buying and selling all of the securities in its portfolio once in the course of the year. The higher the ETF's portfolio turnover rate in a year, the greater the trading costs payable by the ETF in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the ETF.
